

**The
planet Earth,
the planet Earth**

**It's gradually dying
and people are to blame**

The planet Earth, the planet Earth

**We must change ourselves
and never be the same**

**Let's talk about climate,
it's gradually changing**

**Because of gas emissions
a heavy toxic fumes**

**The temperature is rising,
it causes forest fires**

**Heat waves and crazy floodings
and horrifying droughts**

**The planet our's dying and
we can't live forever**

**In place with such pollution
and dangerous for all**

**My brothers will you tell me
if we can find ways out**

**And find some right solutions
be happy and be free**

**Of course there are ways out
and they can help the planet**

**They are just so simple
so try to follow them**

**Emissions warm the planet
and smog is killing nature**

**Polluted soil and water
are killing all alive**

**Reduce your carbon footprint,
use bicycles and walking**

**To fight the global warming
and make your home safe**

**Switch over to green energy,
use solar and wind power**

**So energy efficiency should
be your first concern**

**The forests are important
to mitigating climate**

**And so deforestation
Is really great concern**

**Rainforests are cut down
to make the cattle ranching**

**The animals are dying
or just become extinct**

**The climate is also changing
it's getting hotter and hotter**

**Be sure in a few years it will
be even worse**

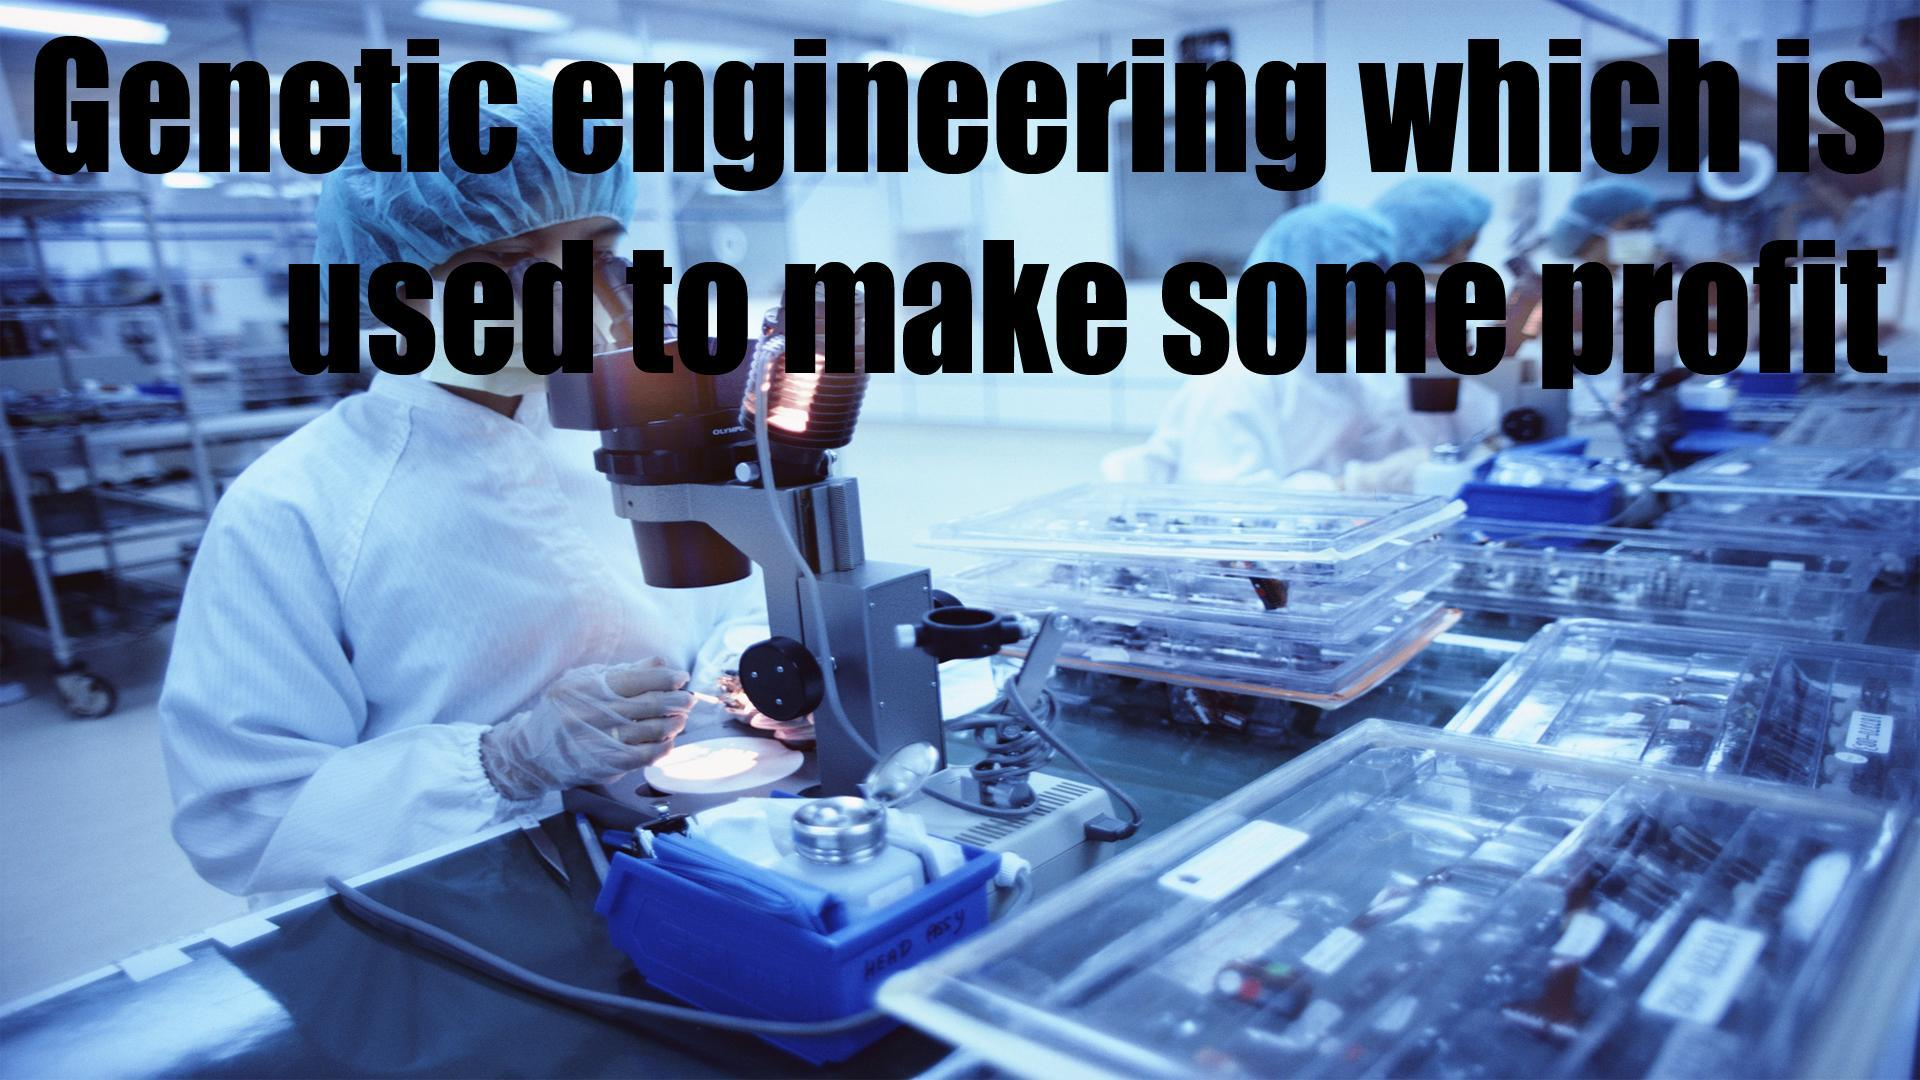

**Inhabitants of wildlife don't
have the place to live in**

**Are gradually dying
or just become extinct**

**Genetic engineering which is
used to make some profit**

**Is not as good as may seem
we must reject at all**

**So pesticides and toxins
are used in agriculture**

**Are really very harmful for
products and for soil**

**Protect biodiversity and
don't harm environment**

A vibrant blue sky with a bright sunburst in the center. Two white doves are in flight, one in the foreground and one in the background, both with wings spread. The sky is dotted with fluffy white clouds.

**Cos notion "world diversity"
is universal law**

So people of the planet Earth

You should be more attentive

**Environmentally friendly
to out dying home**

Human being don't be the same

Help your planet a try again

A composite image of Earth from space. The Earth's horizon is visible, showing a blue atmosphere and green landmasses. A bright sun is positioned near the horizon, creating a lens flare effect. A satellite with a circular dish is visible in the upper left corner. The background is a deep blue space filled with numerous stars.

**Just remember
planet Earth's our home**

Only you can help

You are not alone
