

A sea turtle is swimming in clear blue water, its head and front flippers visible. It is swimming towards a piece of clear plastic that is floating in the water. The turtle's shell is brown and textured, and its flippers are a lighter brown color. The plastic is a clear, rectangular piece that is partially submerged. The background is a deep blue, suggesting the ocean.

Environmental concerns

Environmental concerns

**Climate
change/Global
warming**

Pollution

Biodiversity

**Resource
depletion**

**Overpopulation/o
verconsumption**

The media, public, and scientific communities are focusing more than ever on the top 30 environmental concerns the Earth is currently facing.

People vs Planet

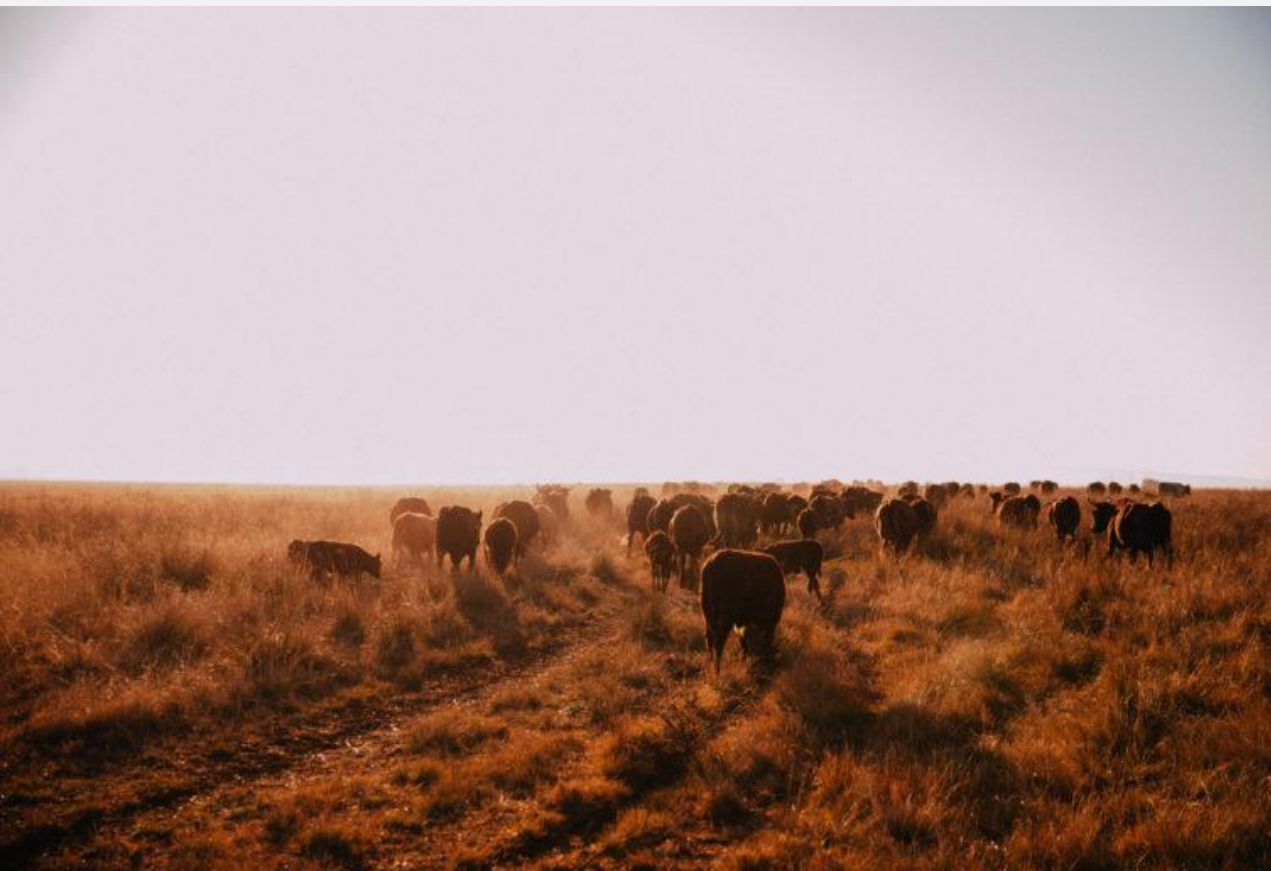

People affect animals
through four broad
types of activity.

people keep companion, farm, laboratory and captive wild animals, often while using them for some purpose;

People affect animals
through four broad
types of activity.

people cause deliberate harm to animals through activities such as slaughter, pest control, hunting, and toxicology testing;

People affect animals
through four broad
types of activity.

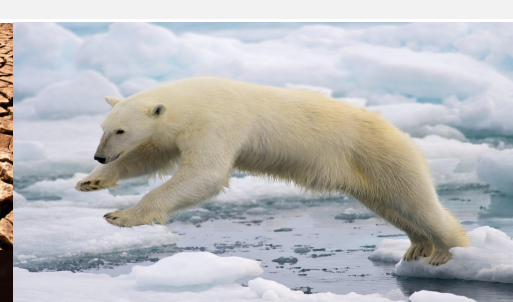

people cause direct but unintended harm to animals through crop production, transportation, night-time lighting, and many other human activities;

**People affect animals
through four broad
types of activity.**

people harm animals indirectly by disturbing ecological systems and the processes of nature, for example by destroying habitat, introducing foreign species, and causing pollution and climate change.
