Zaripov Danis

- Zaripov is my idol since early childhood. I watched him play in Ak Bars in 2009. Already at that time showed a good game. This he impressed me. I would like to learn how to play it, but this requires a lot of training.

- Danis Zaripov after the early termination of the disqualification (6 months out of 2 years) for the positive result of the doping test, on November 23, 2017 returned to the Kazan "Ak Bars". I am very pleased with this news.
- I expect more heads from him and I want to raise the Gagarin Cup over my head.

Thank you for your attention!!!
