

Smolensky Construction College

March 25, 1944 decision of the State Defense Committee was created in Smolensk Building College to train technicians, construction workers to rebuild towns destroyed by the Nazi invaders in the Great Patriotic War

In 1992, the college converted into a new type of institution - building college

History

March 25, 1944 decision of the State Defense Committee №5465 in the city of Smolensk established Civil Engineering to prepare technicians builders to restore the cities destroyed by Nazi invaders during the Great Patriotic War. The first director of the Smolensk Construction College was Boris Petukhov.

The destroyed building College after World War II

College is located in a former (1877-1917) of a secondary school outside the Communist. The building was badly damaged during the fighting in Smolensk. Forces of the students and teachers of the building by 1948 was fully restored. By 1950, in the courtyard of the college two-storey building for employment and industrial training workshops were built.

Refurbished building college

In 1946, the first issue of 35 technicians, construction workers was made. In 1950, the issue of young professionals has already reached 125 people.

In the first years of college I had one room - the construction. In the late 40-ies in technical training was conducted in the following specialties:

"Industrial and civil construction"

"Sanitary unit buildings"

Since 1955, there was in college evening classes.

On the basis of the decision of the Council of National Economy of the Smolensk region from economic 19 June 1957 Smolensk Smolensk Civil Engineering and Technology College were merged in Polytechnic College. The College 2 Full-time were organized: constructional and technological. training in the field of "Technology of silicates" are carried out on the technology department, "Technology of meat and dairy products."

In June 1957, the correspondence department was organized.

In accordance with the order of the Ministry of Construction of the RSFSR of 15 June 1963 again he became a college building. Since autumn 1979 the construction of a new academic building and a 9-storey building dormitories for 408 seats. While in college there were three branches: the day (700 students), evening (400 students) and distance (260 students). All departments train specialists of industrial and civil construction, production of building components and concrete structures.

In 1981, the 9-storey comfortable hostel, and in 1986 commissioned a new training and laboratory building for 960 students was built.

In 1992, by order of the Ministry of Architecture, Construction and Housing and Communal Services of the Russian Federation Civil Engineering transformed into a new type of institution - building college. The official name - State educational institution Smolensky Construction College.

In the 90-ies. new specialties were opened:

In 2014, Smolensky Construction College otmietil its 70th anniversary. During this time, the institution has trained about 35 thousand specialists.

Next to the educational buildings college dormitories are located.

Dormitory №1 is designed for 400 seats,

Hostel №2 - 100 seats.

All full-time students need to provide a place in a hostel.

Today, the college is the largest educational institution in the Smolensk region, carrying out training mid-level construction industry. Currently Smolensky Construction College - is not just a professional educational organization, but a living, evolving organism with its own traditions, identity, laws, have their own history, their biography, their achievements, their specialty and profession.

At full-time and correspondence courses has about 1,500 students. The College has two academic buildings (ul. Novo-Roslavl, 6 and st. Garaburdy, 17), 2 housing production workshops (str. Communist, 4a and st. Garaburdy, 17), 2 comfortable hostel with 400 seats (str. Tennisheva and 20 st. Garaburdy, 17a). Study rooms are equipped with modern furniture, display equipment, video and audio equipment, computer technology.

Smolensky Construction College - the winner of the contest "100 best secondary specialized educational institutions of Russia", awarded with the medal "European quality", winner of the interregional contest "Best Colleges CFA."
Colleges CFA."

The End
