

A pixel art illustration of a city skyline at sunset or sunrise. The sky is a gradient of orange, pink, and purple. The city features various skyscrapers and buildings in shades of pink, purple, and blue. In the foreground, there are darker, more detailed buildings with some windows lit up in green and yellow.

signs of globalization in Kazakhstan. Pros & Cons of globalization.

**Performed by Akniyet, Dayana and
Islam from group IS2+CS**

What is globalization?

Globalization – the idea that the world is developing a single economy and culture as a result of improved technology and communications and the influence of very large multinational companies.

Load1

ne

Globalization – is the process by which ideas, knowledge, information, goods and services spread around the world.

- Development of telecommunications infrastructure
- Improvement of the economy
- Kazakhstan is a member of international organizations such as the UN and the WTO

The background is a pixel art illustration. On the left, a dark, multi-story building with some lit windows is visible. In the center, a dark silhouette of a person's head and shoulders is shown, looking towards the right. On the right side, a city skyline is depicted with various buildings, including a prominent tall, thin tower. The sky is a warm, orange-brown color, suggesting a sunset or sunrise. The overall style is retro and digital.

Thanks for attention!
