Joint growth-the key to successful family!

My family is full. I have a mom, a dad and a brother. Grandparents live separately.

My mother's name is Olga, she is 39 years old. She has blue eyes, brown short hair. She is pretty kind and compliant. Now my mother is sitting at home with my little brother. She likes to cook.

My dad's name is Alexei, he is 41 years old. He has blue eyes and very short hair. He is stubborn, but interesting as a person.

My brother's name is Andrew, he's less than two years old. He has big blue eyes and a sweet smile. He likes to eat and play toys.

I would like to talk about the house in which I live. It is located in a small town, Belovo. The house has two bedrooms, a living room, a kitchen, a dining room. A number of lush trees grow next to it. I do not like living in a house, I'd rather move to a flat.

I usually rest in my room, reading books or sitting on the Internet. It distracts me for a while from problems.

My family is quite friendly. We like to watch TV together in the evenings or sit over a cup of tea. I love my family, it's the best!
