

My summer holidays.

Perfomed:Zhukova Alexandra

- **My summer vacation started not quite with rest, but with passing exams and practice. I successfully passed all the exams and went to practice in a clearing in Klepikovsky district, near the village of Seleznevo.**

Seleznevo village.

- **On this practice I learned a lot of interesting things, for example, I has learned to define a plant, its genus, family and subfamily.**

- I also learned to collect a magnificent herbarium that will warm me with its beauty this cold winter.

A little more photos.

As soon as my practice was over, I went to Tuma. There I enjoyed spending time in my own home with my family and friends. We often went to forest lakes, organized hikes and picnics there.

- **Then, I went with my friend to Moscow. There, we went every day to various parks, exhibitions and museums. Still, we often went to the Pirate-Marmalade store, and I want to tell you that there are the most delicious sweets.**

- my friends are Nastya and Anya.

- **After a trip to Moscow, we went to Gelendzhik. This was very interesting and fun! Every day we went not only to the beach, but also to various excursions. We went by jeep to the mountains and visited the valleys of waterfalls and dolmens, storm gates and tasting of home wine. Another day we sailed on a yacht to the open sea and swam there. We went to the park and the water park in the golden bay. Also we went up to Olympus, there were concerts of Olga Buzovaya, Philip Kirkorov and Loboda.**

- A little more photos.

- **Next summer, I would like to travel not only within Russia, but also to go abroad. That's why I want to learn English so that I can fly to another country, I understand its inhabitants and feel more comfortable, because English is the most important language of international communication.**

Thank you for attention.
