

# ART AS A WAY OF EXPRESSION

Made by: Iliyn Dmitry, Rubtsova Alexanra and Matrosova Aline

# GRAFFITI

Graffiti is the most developed kind of expression. Initially, graffiti was just tags of gangs in America that tagged their territory. Now tag is a signature of writers. It can be art or just complex inscription.

Nowadays graffiti has many types and styles in our world.

# STYLES OF GRAFFITI

There are 8 types of graffiti today.

- 1) Bubble letter
- 2) Throw-up
- 3) Blockbusters
- 4) Character
- 5) Messiah Style
- 6) Computer Roc Style
- 7) Wild Style
- 8) FX or 3D style

# BUBBLE LETTER

This is first of simple styles of graffiti. Words drew this style looks like bubble gum which will break now.

# THROW-UP

The second of simple styles of graffiti. It's like a bubble but words must be two colored.

# BLOCKBUSTERS

In this style letters must be square.

# CHARACTER

This is style which has multiplication characters.

# MESSIAH STYLE

This style was invented by Vulcan, in which the letters appear as if written on different sheets.

# COMPUTER ROC STYLE

involves the separation of letters or images into separate fragments, each such fragment is tilted in different directions.

# WILD STYLE

This is the heaviest style of graffiti. Words in this style are very difficult to read. There are many subspecies of Wild Style.

# FX OR 3D STYLE

Distinctive features of this style are understandable by name, the style is distinguished by the absolute volume of the created images
