## Ryazan State University named for Sergey Esenin

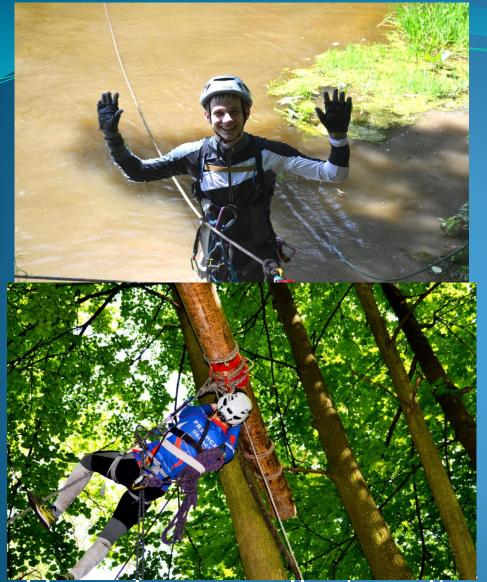

## My summer By Sorokin Vladislav

Ryazan, 2016

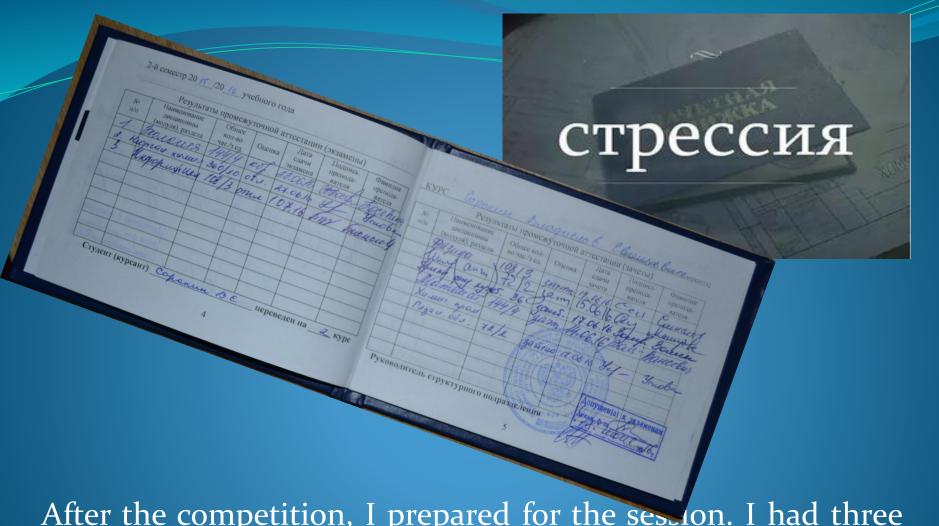

My summer began with the traditional competitions in sport tourism.

Thave shown excellent results in competitions. I won personal and team championship of the Ryazan region.

After the competition, I prepared for the session. I had three exams. I have got a good mark on ecology and an excellent mark on computer science and chemistry. I have finished this academic year well.

I was invited to work in the camp in the summer. I was an instructor for Tourism. I coached children, prepared them for competitions

I was offered to go to the forum "Meschera" in the summer. "Meschera" is the regional forum of the youth self-government of the Ryazan region.

I participated in football championship of Starozhilovsky District in the summer. Unfortunately, my team did not show significant results. I hope they will be better to the next year.
