THE CONTENT OF FOREIGN
LANGUAGE TEACHING OR WHAT
TO TEACH IS ONE OF THE MAIN
PROBLEMS THE METHODS DEALS
WITH.

The content of FLT involves 3
main components.

Psychological component or habits and skills which ensure the use of the target language as a means of communication. They are listening, speaking, reading and writing skills.

Second

Linguistic component. It includes language material (sentence patterns, utterance- patterns, pattern- dialogues, texts) and linguistic material (phonology, grammar, vocabulary) which should be assimilated to be used in language skills.

Third

Methodological component.

Pupils should be taught strategies, how to learn a foreign language. Ex. how to memorize words and keep them in memory, how to perform drill, creative exercises.

The content of foreign language teaching involves:

- language skills: hearing, speaking, reading, and writing;
- language (textual) material;
- linguistic material; vocabulary; grammar, phonological minima.

IN CONCLUSION IT SHOULD BE SAID
THAT THE CONTENT OF TEACHING IN
OUR SCHOOLS IS LAID DOWN IN THE
SYLLABUS AND REALIZED IN
TEACHING MATERIALS AND IN THE
TEACHER'S OWN SPEECH.

Thank you for your attention!
