

Shopping on the Internet in 2011 commit only 8.5% of Ukrainian users

Користування інтернет-магазинами, %

83% of young people aged 18-24 use the Internet

Dynamics of Internet penetration in the CIS (million people, 18 years and older)

Compared with the previous year, the total volume of e-commerce in Ukraine grew by 32%.

This is according to research Ukrainian Processing Center (UPC), which is characterized by market e-commerce in Ukraine, as of October 2011. In particular, the number of online stores that have begun to accept payment cards in their calculations with clients increased by 25% over the last year. Buyers, in turn, have made 26% more online shopping than in October 2010.
