

Subculture rockers

ROCKER

History of the name subculture

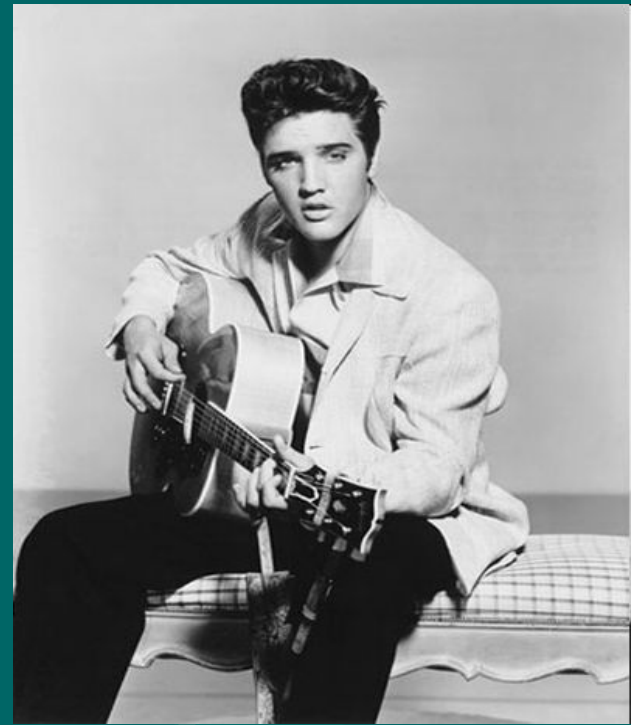

- Word rockers, originally served to determine the British youth in Britain in the sixties of the last century, which allowed herself very disrespectful to dissect the roads on motorcycles.

Provenance the subculture

- Rockers - representatives of the subculture that originated in the late 50's to early 60's in the UK. At that time - young people, famously leaping through the streets on motorcycles. That love of high-speed driving, and later to rock music contributed to the spread of a new subculture. Rockers very recognizable in society in appearance: the most important attribute in rockers: motorcycle, bike or rather, black clothes with different "glands"

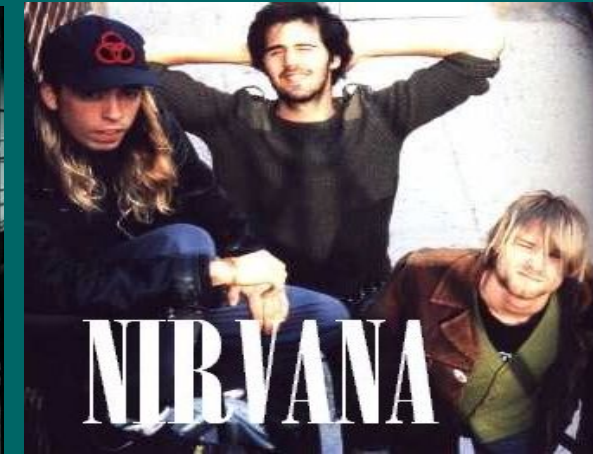

Favorite music

- Rockers appeared as a subculture in an era of rock 'n' roll, representatives of the music and style which became Chuck Berry, Elvis Presley early, Gene Vincent, and others.
- In our country has evolved Russian rock, which is referred to the representatives of the "Alice", "DDT", "Cinema", "Nautilus Pompilius", "Time Machine" and others.

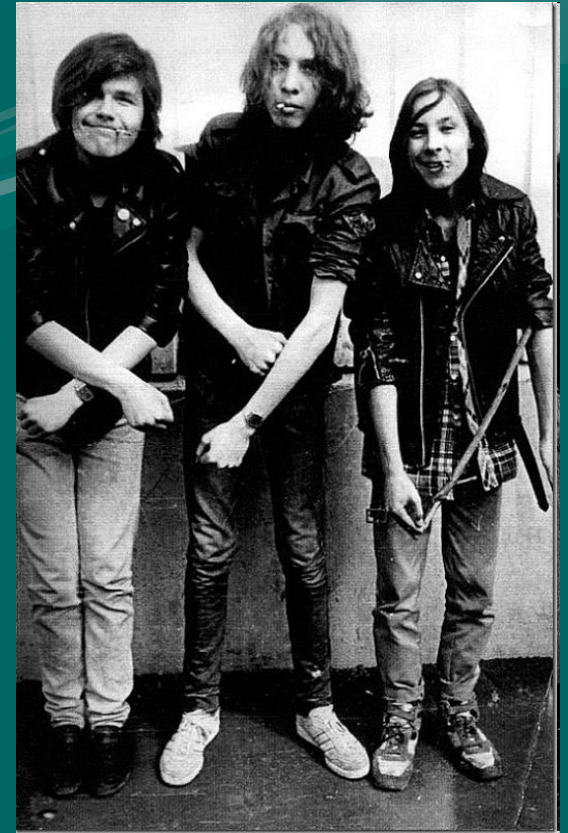

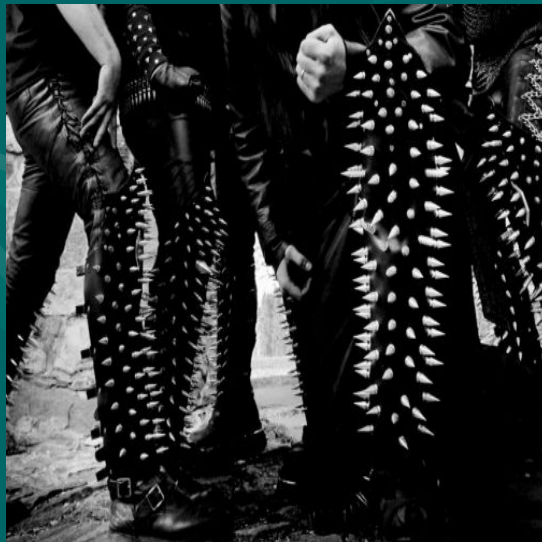

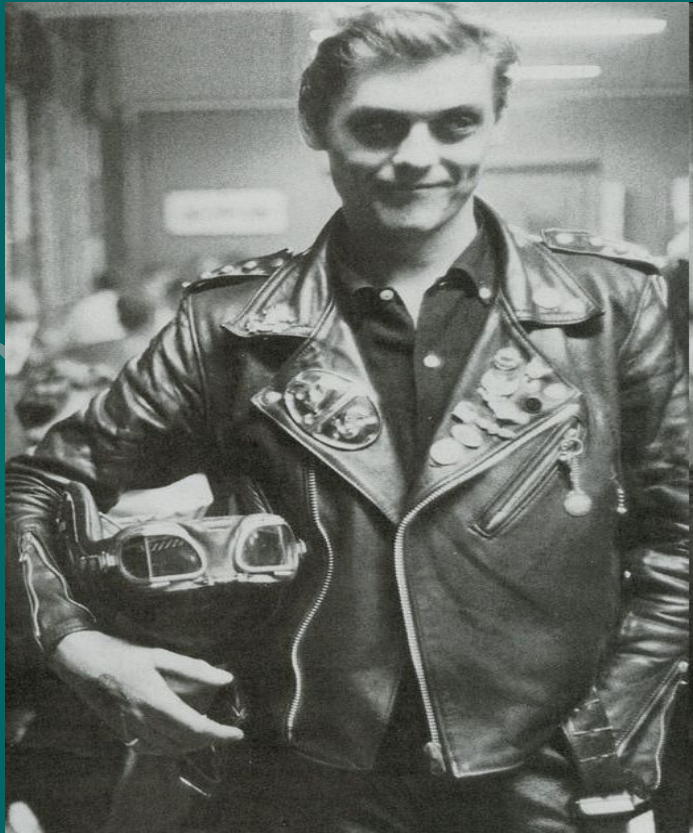

Our favourite musical performers

- Over time, the subculture rockers divided into separate species, new rock direction of "light" (pop-rock, Britpop) to "severe" (heavy metal, punk rock), and even aggressive (death metal, grindcore)

Clothing rockers

- In the style of this subculture dominated by features of brutality that is achieved by using denim and leather. Their clothes are very comfortable and practical. For example, a leather motorcycle jacket, or "black leather jackets" - a mandatory attribute rocker costume. It is decorated with rivets, studs, pins, chains and stripes. Rockers prefer a motorcycle helmet, leather cap, bandana. In the wardrobe of every self-respecting rocker occur leather pants or jeans.

Accessories

- Rocker is alien body jewelry accessories, mostly of white metal and leather - rings, chains, bracelets, wristbands, belts with different Celtic symbols and images of animals.

Hairstyles rockers

- Usually men prefer long hair, loose or gathered in the "horse" tail. Popular short haircuts and rockers, where the hair of different lengths are placed in the "thorns", the Iroquois, greased back hair, or simply raised up cosmetics.
