Hotel «Grand Hotel» A woman invented and built. Woman architect. Do you know what she dreamed about when she designed the hotel building? She wanted to create a creative space here for herself and her fellow architects. Therefore, I thought through the details to the smallest detail, was inspired by the classic European design and designed the building in such a way that there was always a place for work and rest - serious conversations and noisy disputes, large-scale holidays and quiet solitude.

In a sunny hotel, it is always light and easy to work with. My heart is joyful, but brilliant ideas come to my mind.
