Brief

I am building an app for golf, the app will run challenges and allocate points into a leaderboard.

What I would like is to present the Tests in a fun manor their are currently 20 Tests you will see the variation of the sessions on the next pages.

The target group is from 6-17.

The images will be used in a digital format to promote the upcoming challenges / Tests you will see on the following page how the user will see the tests on the App

Brainstorming

On the image I need to show the scoring zone and possibly the tracking of a golf ball. It can have a fun animated feel.

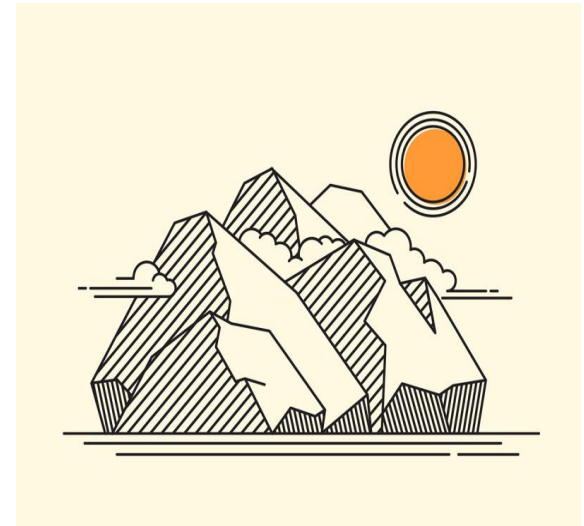

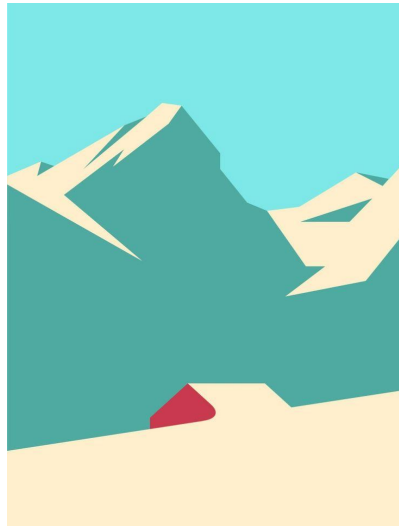

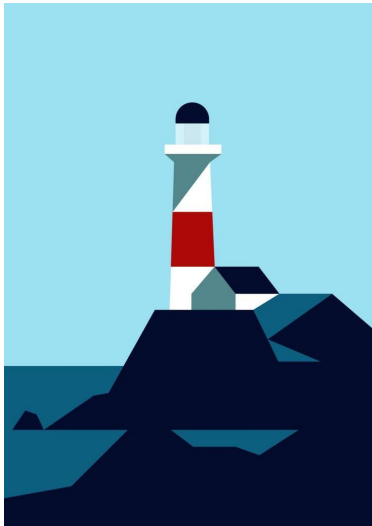

Tracking of the shot

Scoring zone

Akademie

Example

In a minimalistic style. Shaped. No round curves. Clean.
Cool. Modern colors.
Examples below.
