

ENGLISH LANGUAGE IS MY FUTURE CAREER

Prepared by:
Nurbolat Assanov

At present time the knowledge of foreign languages is not desirable but necessary. And the language which most people use when they make a contact with other nationalities is English.

A different language is a
different vision of life

There are some reasons why learning English is important in the life of a contemporary man:

**KEEP
CALM
AND ENJOY
LEARNING
ENGLISH**

You increase your range of communication.

It is spoken by 1 billion people all over the world.

There will be no problems with applying for a prestigious job. Being a good specialist you can take part in the international conferences. And share your ideas with colleagues from other countries.

If you know language you can teach children.

A foreign language can help you know your language better.

You can visit many countries to get acquainted with culture and customs of different nations.

That's why I'm very glad to my future career.

My choice is a teacher of English language.
