The text

Ukraine is situated in south-east of Europe. It borders on Russia, Belarus, Moldova, Slovakia, Hungary, Poland and Romania. The area of Ukraine is 603,700 sq.km

The territory of Ukraine is mostly flat. There are the Carpathian Mountains in the west and the Crimean Mountains in the south, but they are not high. The main rivers are the Dnieper, the Dniester, the Buh, the Donets and others. The Dnieper is one of the longest European rivers and one of the main sources of hydroelectric power in the country.

The coasts of the Azov Sea and the Black Sea are good for ports. We have quite a lot of big sea ports, for example, Odesa, Kherson, Mykolaiv, Izmail, Mariupol and Kerch.

В Україні 22 морські порти через них проходить 18 тис. суден

The geographical position of Ukraine is very favourable because the country lies on the crossroads of the ways from Asia to Europe. Since the times of Kyivan Rus Ukrainian roads have been used for trade contacts. Due to favourable climatic conditions, Ukraine is traditionally an agricultural country. Wheat, maize and other corns, vegetables, all kinds of fruit are grown here

The country is rich in natural resources, such as iron ore, coal, non-ferrous metals, oil, gas. It has developed a varied industry, concentrated mostly in and around big cities, such as Kyiv, Zaporizhia, Dnipropetrovsk, Odesa, Kharkiv, Lviv, Mykolaiv and others

Ukraine produces planes and ships, lorries and buses, electronic equipment and agricultural machines, TV and radio-sets and other goods.

The End
