Text

I'm in eighth grade at school # 3.

I would like to tell you about our school life.

I go to school five times a week.

Our classes begin in the morning and will last until 3:00.

Thus, we have six or seven lessons a day.

We study many different subjects: literature, history, geography, biology, physics, chemistry, algebra, geometry, and computer science.

My favorite subjects are English and physics.

I get average marks in these subjects .

The academic year is divided into four periods called quarters.

The year starts on the 1st of September, knowledge Day

After each quarter of my holiday.

Each student has a journal in which teacher to assign a grade obtained by a student.

During the lesson, students should be able to answer the teacher's questions, do the exercises, write sentences, count, read.

Most students bring to the Board.

After each lesson the teacher sets homework.

The next day his teacher checks.

To study well at school, and you need to constantly do homework to do homework or at least two to three hours per day
