

Under the Sea

Many animals live
under the sea.

There are many fish.

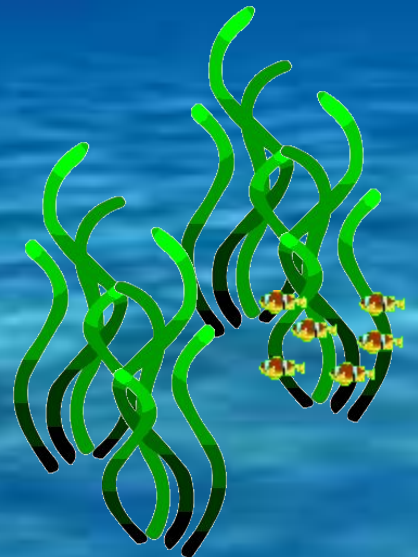

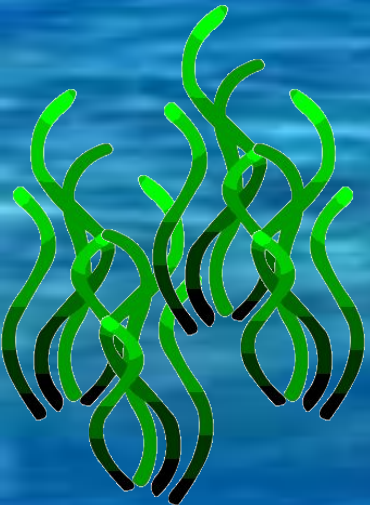

There are many big animals
too.

There are many
different types of fish:
big fish, little fish,
colourful fish and plain
fish

Can you say
something about these
fish?

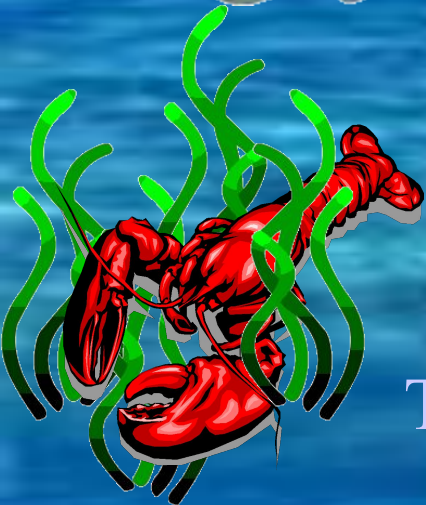

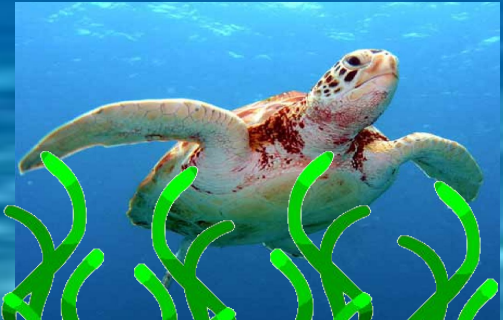

One is big and one is small.

One is colourful and one is blue.

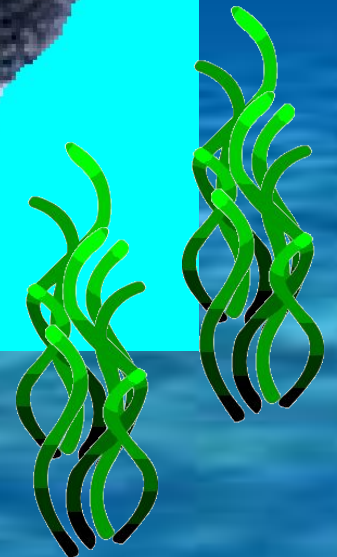

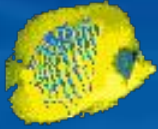

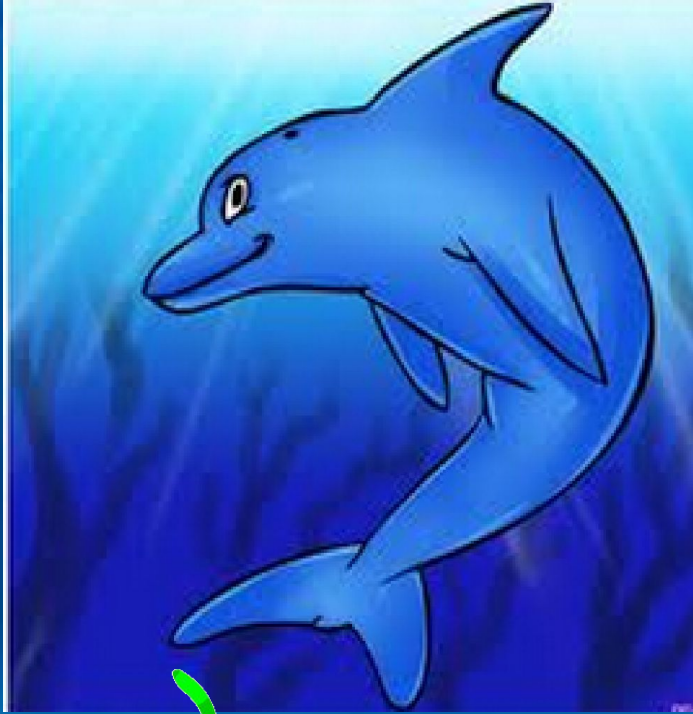

This is a turtle

This is a lobster

This is a whale. In
real life a whale is
HUGE!!

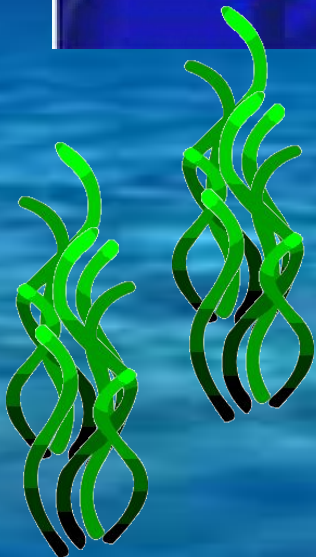

This is a Dolphin.

**Dolphins are every
friendly and love
humans.**

**They have been known
to save humans from
sharks**

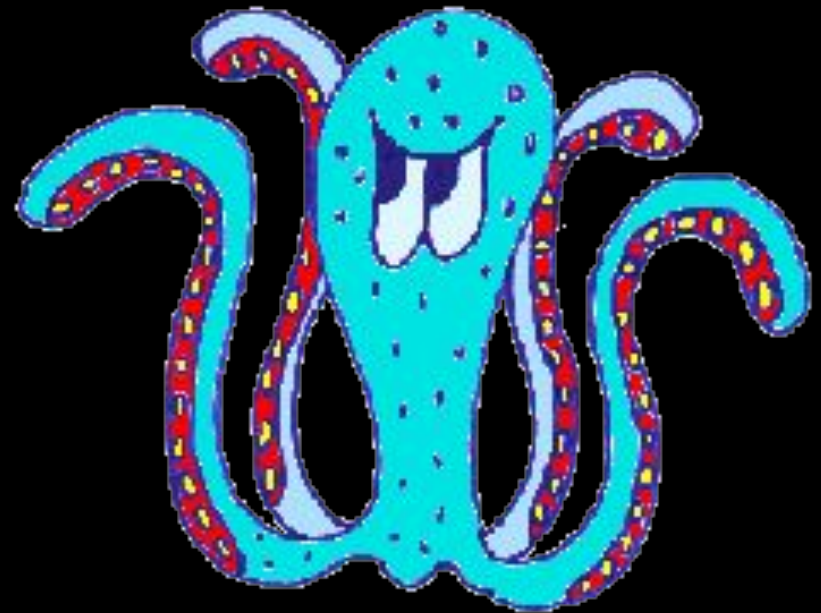

This is a starfish

This is an octopus. an Octopus has 8 legs.

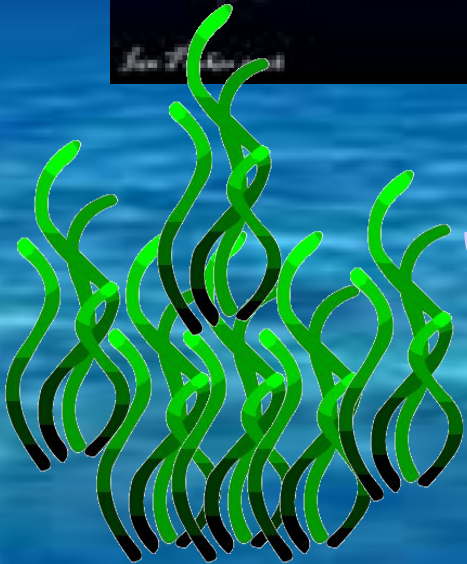

Octogan is an 8 sided shape

Octo (to mean 8)
