Goth is someone who finds beauty in things others consider dark. They love all that is dark and mysterious. That doesn't mean Goths are evil. And it also doesn't mean Goths are unkind, violent or lacking in humour, in fact quite the opposite is true. Goths love to laugh but their humour is more of the black comedy sort. Dark things make them happy and inspire them.

They do not worship Satan and aren't members of a cult. Goths can be found around the globe and come from many different backgrounds and ethnicities. The Goth culture is very big in Japan and Germany.
