

Использование компьютерных презентаций на уроках английского языка.

Из опыта работы учителя
английского языка
Гимназии №2 Карпеза И.М

Применение компьютерных презентаций
в учебном процессе позволяет

интенсифицировать усвоение учебного
материала учащимися и проводить занятия
на качественно новом уровне

Компьютерные презентации

- позволяют акцентировать внимание учащихся на значимых моментах излагаемой информации и создавать наглядные эффектные образцы в виде иллюстраций, схем, диаграмм.
- воздействуют сразу на несколько видов памяти: зрительную, слуховую, эмоциональную и в некоторых случаях моторную

Использование компьютерной презентации на уроке позволяет:

- повысить мотивацию учащихся;
- использовать большое количество иллюстративного материала;
- интенсифицировать урок, исключив время для написания материала на доске;
- вовлечь учащихся в самостоятельный процесс обучения, что особенно важно для развития их общеучебных навыков.
