CHENGDU: CITY OF GIANT PANDA

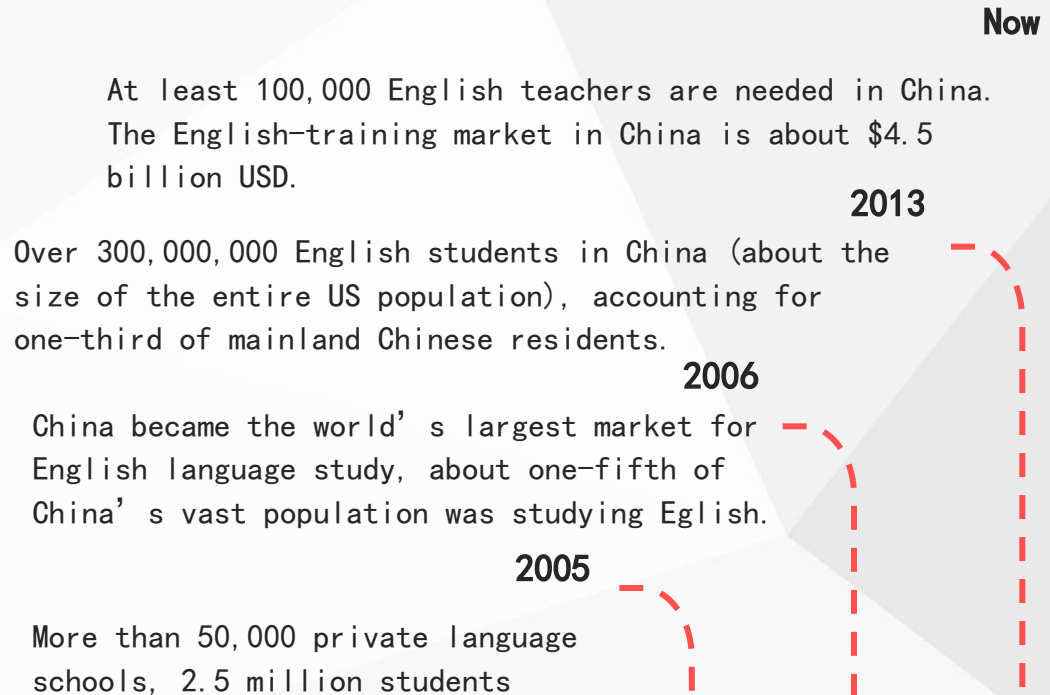

- China is emerging as a global financial force, and with English firmly established as the global language of commerce, improving English competency amongst China's citizens is a major focus for the Chinese government.
- Also, with the rapid development of economy of Chengdu, local people emphasize the importance of this second language learning. As English is a world language, Chinese people learn English since they are in primary school.

ENGLISH TEACHER NEEDED

With a booming ESL market and a soaring economy, China's newest generation of parents provide their children with English education the best money can buy. Given that, native English speaker teachers are needed from preschool all the way to high school where students need best TEFL and SAT tutors helping them to enter international universities. While the ESL markets in Japan, Korea and Taiwan stagnated, numbers of China's ESL jobs have skyrocketed in the last few years and continued to grow exponentially.

The English Education Market in China
