**SMART** 

### Let us have look at the GoldSet Global Smart order for sets of GIG-branded gold bars.

# **ORDER PLACEMENT**

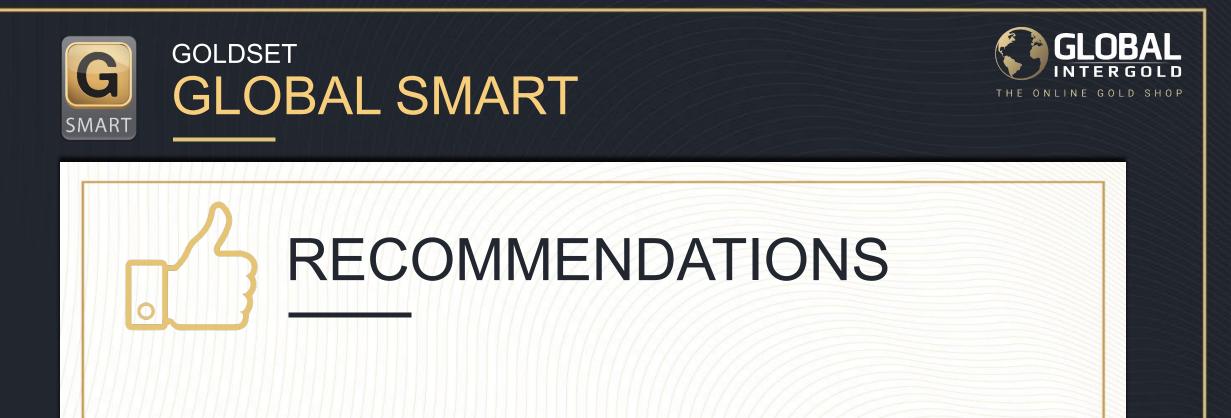

The customer places an order for a set of GIG-branded physical gold bars in the Online Gold Shop under the terms of the GoldSet Global Smart program for the minimum amount of 7,000 EUR.

BANK

The Online Gold Shop issues an invoice for the set of gold bars with the minimum prepayment of 275 EUR.

Customers makes the prepayment for the order and recommends the new product and the order.

The Online Gold Shop credits the customer reward units in amount of at least **7000 (EUR)** in exchange for the recommendations which result in new initiated orders.

# **REWARD UNITS**

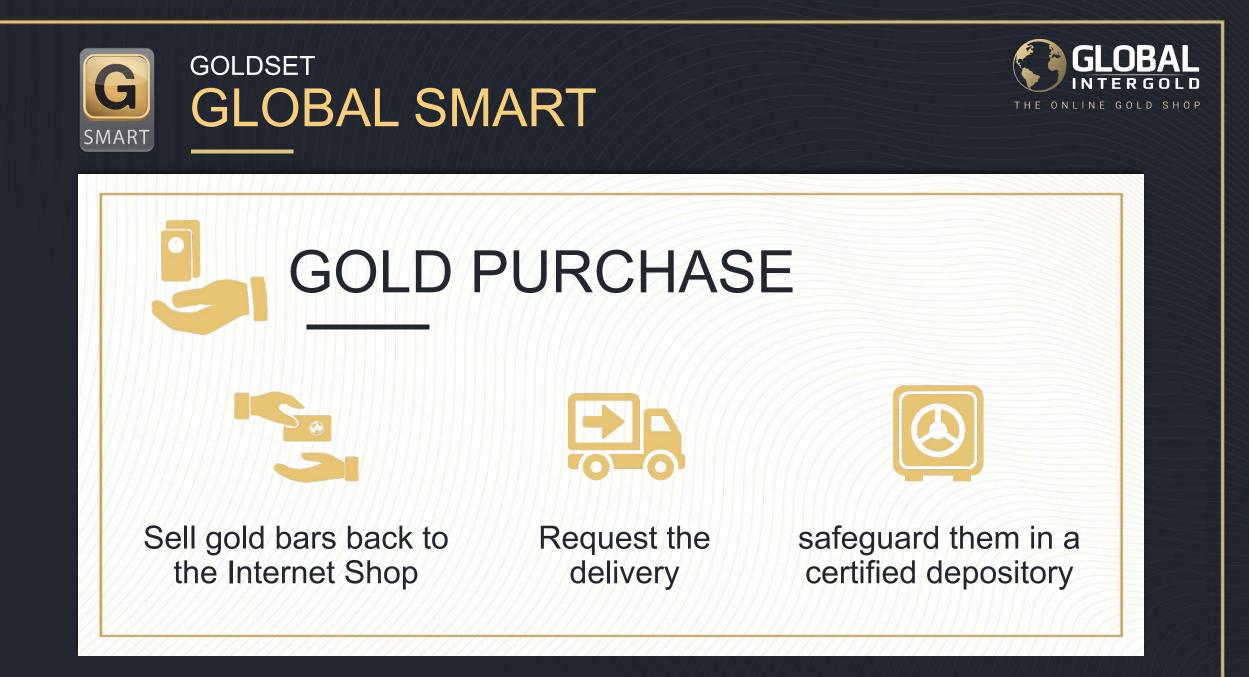

Credited reward units are used for the purchase of investment-grade gold bars.

Every time reward units are credited, the purchase of physical gold bars for the credited amount is made automatically. Then, the customer can elect:

GOLDSET

Thus, the cost of a GoldSet Global gold bars set is 7,000 EUR: a minimum of 275 EUR is covered at customer's expense, while the remaining amount is offset by the successful promotion of the Online Gold Shop and its product.

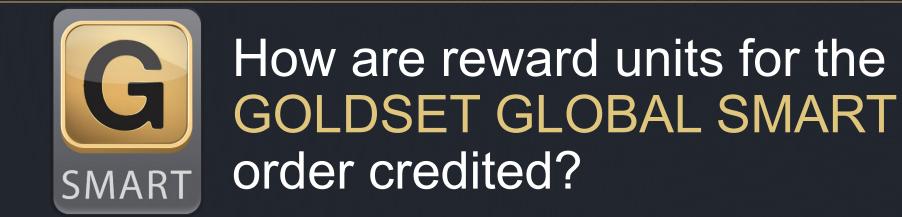

# NOTE

Customers have to cancel the order within **14 days** after initiation if they decide not to continue the order under the terms of the GoldSet marketing incentives program.

Customers can pay the full amount of the order (or in instalments) at any moment at the expense of personal funds and become the holder of the ordered gold bars.

The Goldset Global Smart table of orders consists of 3 levels and includes 7 orders from buyers.

Buyers' orders are placed on the table of orders *consecutively on the first level of the table*, taking into account recommendations made by the buyers. The first level is divided into two sections.

#### **ORDERS MOVEMENT**

The customer makes recommendations of the Online Gold Shop, its product and the marketing incentives program and initiates new orders from new customers on the first level of the table.

When the table splits, two new tables for new customers' orders appear, having new first level for new orders from customers.

As a result of successful recommendations of the Online Gold Shop, the order moves down to the next level, until it reaches the third one.

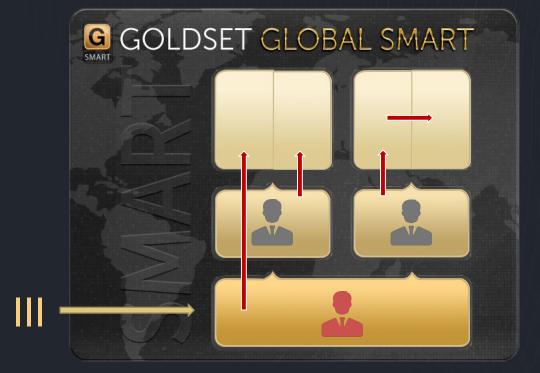

As a result of successful recommendations of the Online Gold Shop, the order moves down to the next level, until it reaches the third one.

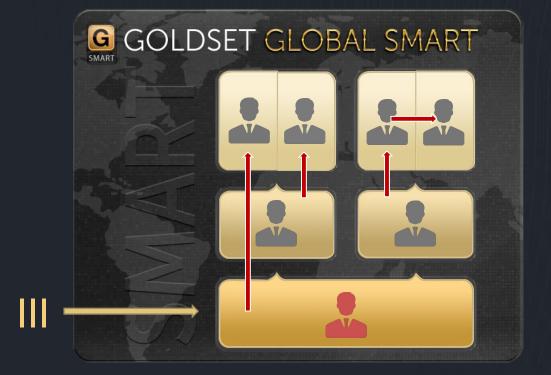

New customers' orders are placed only on the table of the customer who recommended them the business.

That is how customers' work is taken into account when crediting reward units.

When the order is on **the third level** of the table of orders and the first level is filled, the customer is credited **reward units** right after any section is filled.

www.globalintergold.com

Upon completion of each section the customer receives 500 reward units, i.e. 2 \* 500

(reward units are equal to euro) to pay for the order for gold bars.

The table of orders is considered complete (1 cycle) when the customer has received the full reward in the amount of **1000 units** (EUR).

## NOTE

Customers have to cancel the order within **14 days** after initiation if they decide not to continue the order under the terms of the GoldSet marketing incentives program.

Customers can pay the full amount of the order (or in instalments) at any moment at the expense of personal funds and become the holder of the ordered gold bars.

## RECOMMENDATIONS

To receive the reward, the customer must make a minimum of 2 direct recommendations which result in orders from new buyers placed on the GoldSet Global Smart table. The new orders will be taken into account in all subsequent order cycles.

# NOTE

If the table of orders is completed and the Buyer does not have two direct referrals who have placed their orders in the GoldSet marketing incentives program, the order will be removed from the table and the prepayment will be returned to the buyer's account. **GLOBAL SMART** 

## RECOMMENDATIONS

Remember that the more successful recommendation are made, the more reward units the customer receives.

New customers' success also influences the outcome and speed to obtain reward units.

Upon completion of each section a processing fee of 50 reward units is deducted from the reward. Reward units are also subject to a 15% (67.5 reward units) deduction for the processing of the order and services. These funds are also used for the Leadership remuneration and Leaders Awards financing.

Upon completion of each cycle of the GoldSet Global Smart table of orders the buyer receives 900 reward units (EUR). These units are used for purchasing gold bars with a 15% deduction (order-processing fee).

Reward units serve only for the purchase of investment gold bars in the Online Gold Shop under the terms of the GoldSet marketing incentives program.

Every time reward units are credited, the purchase of physical gold bars for the credited amount is made automatically. The bars are at customer's disposal until the order is completed.
