

MaWHY CALL Belarusian ruble bunny?кет заголовка

Подзаголовок

The word "squirrel" in the title of the Belarusian ruble

The word "squirrel" in the title of the Belarusian ruble can be associated with the word of Belarus or the Belarusian ruble. After all, in tune with the same - "protein - Belarus". But there is a second version. She, by the way, and explain about the bunny.

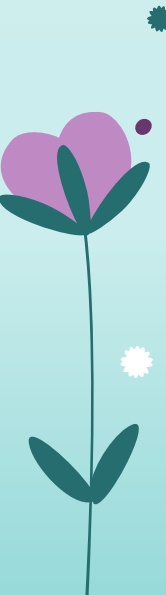

- After gaining independence, the Republic of Belarus in 1991, we did not have their bills. The first "settlement Tickets» Belarus appeared only in 1992. The smallest denomination Belarus (if they can be called so, because "our money" is strikingly different from the 'normal' bills) ... was the nominal value of 50 cents. And there was a picture of a squirrel. Not the squirrel, which comes after a week of hard drinking, and the most natural fluffy Belarusian protein.

That is why the Belarusian money is called proteins.

By the way, in all denominations, all the advantages of representatives of the Belarusian fauna were represented: 50 cents - protein 1 ruble - hare, 3 rubles - beavers, 5 - Wolves 10 - lynx, 25 - elk, 50 - Bear, 100 rubles - a bison. A little later, we started printing bills with higher ratings, but with the image of architectural objects. Belarusian money you already understood - why Belarusian rubles are called "bunnies." Because on one ruble banknote (1992 - the first paper money Belarus) was depicted bunny.

It seems to me,
it was a very
good idea

It seems to me, it was a very good idea - to print on the Belarusian banknotes Belarusian fauna. Money has been recognized and had its color. Now, on the bills are shown at home. For fun - ask those around you - what is depicted on the banknote of 50 thousand rubles? At 100 thousand, 20 thousand? In response, almost always you will get a break. Incidentally, for the record - all the money independent Belarus is always printed in the Russian Federation, as in our country do not have the necessary technical capacity. Here, you will by the way, another item of expenditure - where it would be possible to spend money instead of other projects. We're a sovereign state?
