

MY HOUSEHOLD DUTIES

Храпова Дарья
19л5

1. PREPARING FOOD

I like cooking. I like the process of cooking, the way I can make something wonderful out of nothing. My favorite recipe is charlotte. I cook it several times per month for my family. We usually gather for some family dinner at the weekend

2.DISHWASHING

We eat at home, putting food in different utensils. After eating utensils it is necessary to wash. After all, if you do not wash the dishes, there will be nowhere to put food. If you do not wash the dishes, it will not only smell bad, but it will appear harmful to humans microbes. Dishes must be washed!

NANNY AND CAREGIVER

I have a niece. I really like to braid her braids, they're thin, but they're so funny. I also love spending time with my niece and hanging out with her. I love to go with her to the Park, where there are slides and swings.

ANIMAL CARE

Each family has Pets that need to be washed, trimmed, fed. I have a beautiful cat. This is the best cat in the world! He's very smart and sweet. So I take the best care of him. I bathe him every week. He didn't like it, but later he got used to it. I have my special shampoo to make his fur Shine. I feed my cat special food, which is very useful. I want my cat to have a healthy diet. I play with him every night in the ball, so he did not sleep all day, and had fun and was in shape. He's playful.

WASHING WINDOWS

I like to have clean light in the Windows so I can look at the trees and not see the dust and cobwebs on the glass.

LAUNDRY

I do the Laundry, then my floor, and the last thing I vacuum is the couch and the carpet on the floor. This is the main part of the cleaning is completed. But there is something else that needs attention and even gives me pleasure. This is the care of potted flowers.

I believe that everyone in the family should have their own responsibilities and try to perform them carefully. Then there will be time for joint rest and entertainment.
