№21. слизистая оболочка

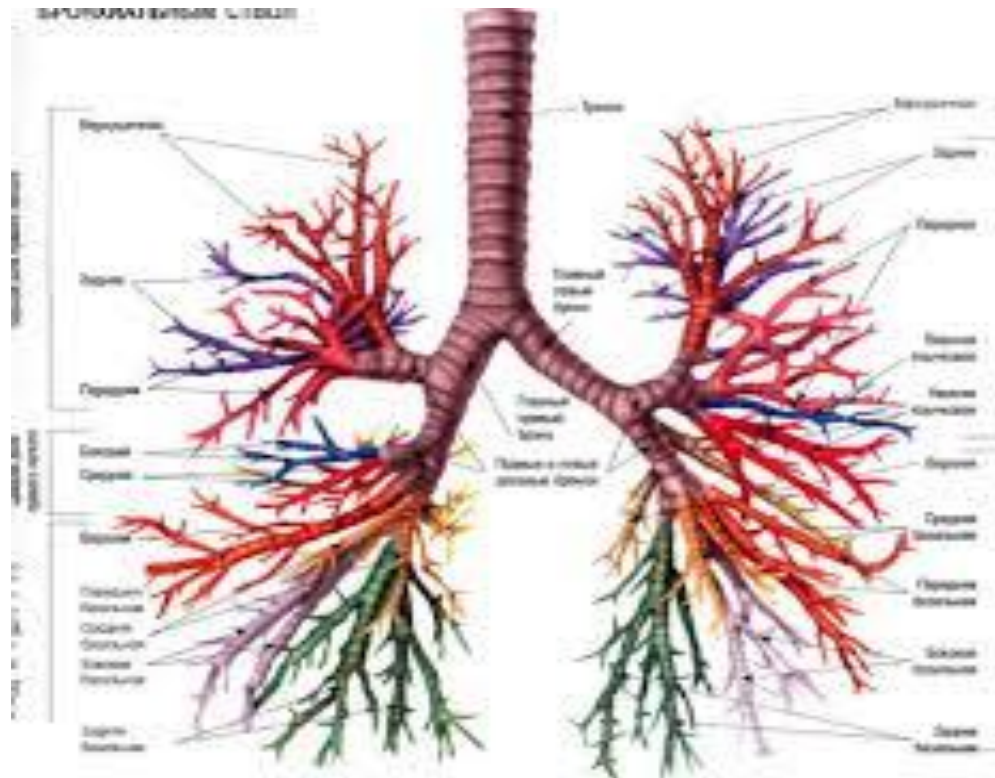

21. mucous membrane

№22. бронхи

22. bronchial tubes

[illegible]

23. sick-leave

The image shows a German 'Arbeitsunfähigkeitsbescheinigung' (sick leave certificate) form. It is a standard form used by physicians to certify a patient's inability to work. The form is divided into several sections:

- Top Section:** Contains fields for the patient's name, date of birth, and address. It also includes a barcode and a section for the physician's details.
- Middle Section:** Contains a grid for recording the patient's absence. The grid has columns for the date and the time of day (morning, afternoon, evening). The rows are labeled with the patient's name and the date of the absence.
- Bottom Section:** Contains fields for the physician's signature, stamp, and contact information. It also includes a section for the patient's signature and date.

The form is filled out with handwritten information, including the patient's name, date of birth, and the dates of the absence. The grid shows the patient's absence for several days, with the time of day recorded for each day.

№24. производить

24. to produce

№25. Таблетки тетрациклина

25. tablets of tetracycline

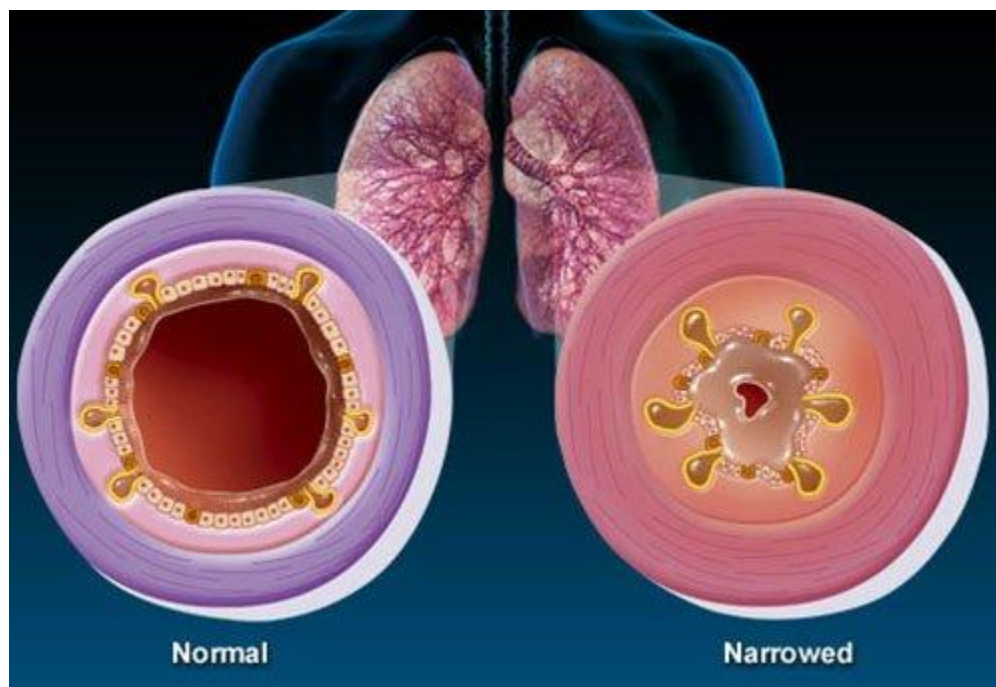

26. Сироп от кашля

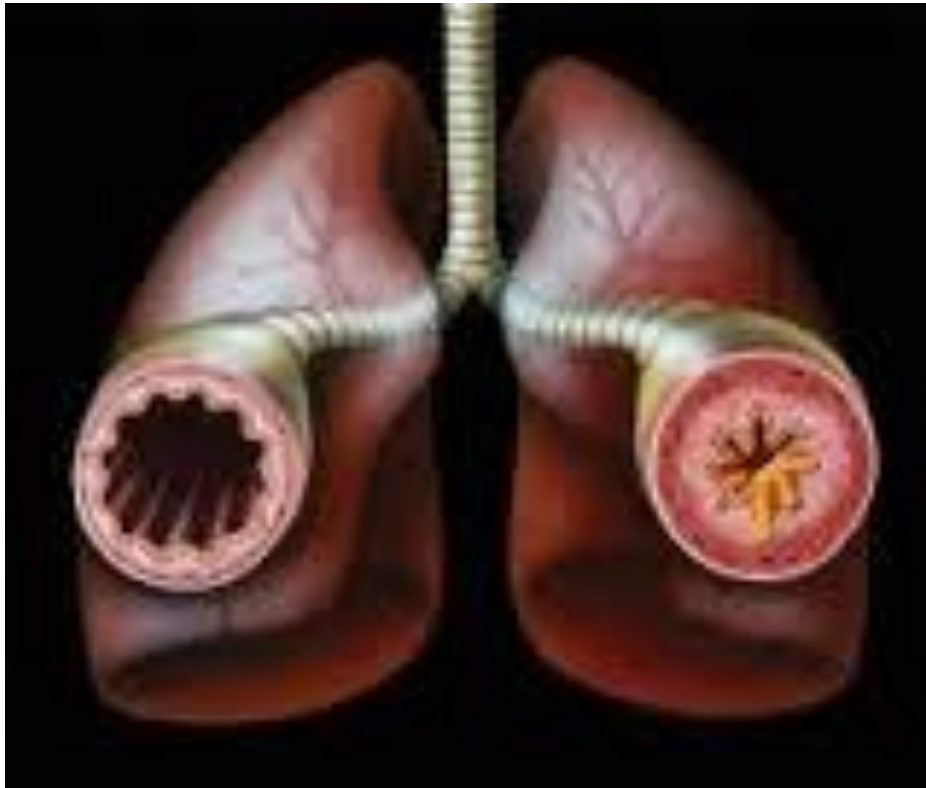

26. cough mixture

27. Хрип

27. rale

28.Грудь

28. chest

29. Жалобы

29. complaints

30. Диагноз

30. diagnosis

31. Насморк

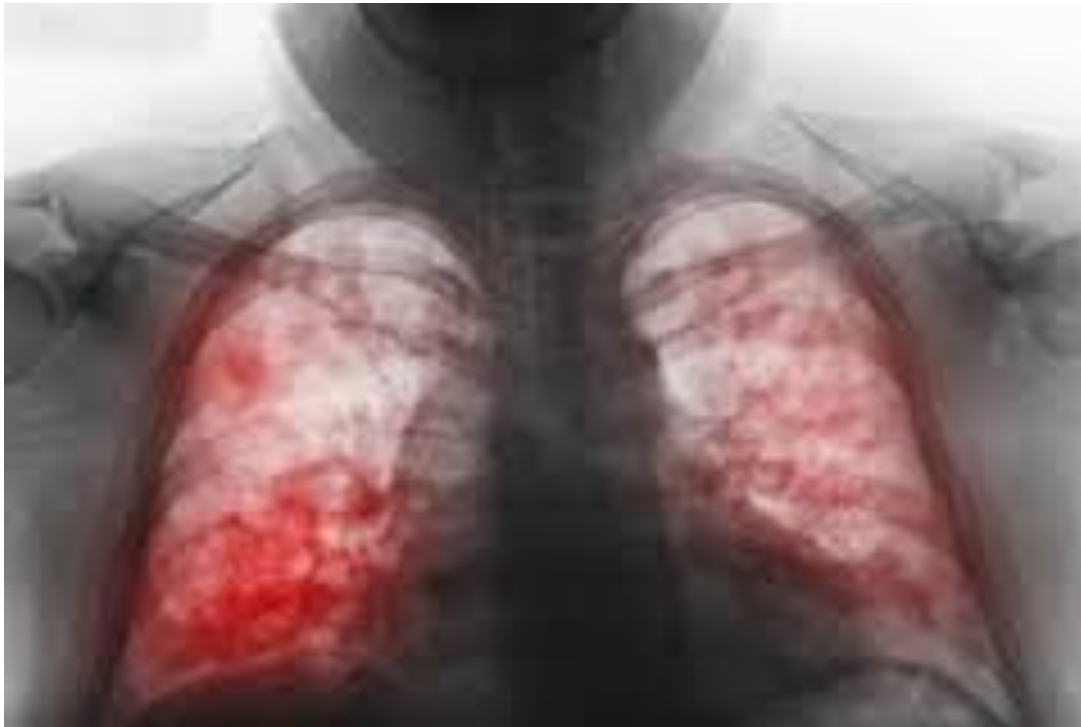

31. catarrh

32. Воспаление

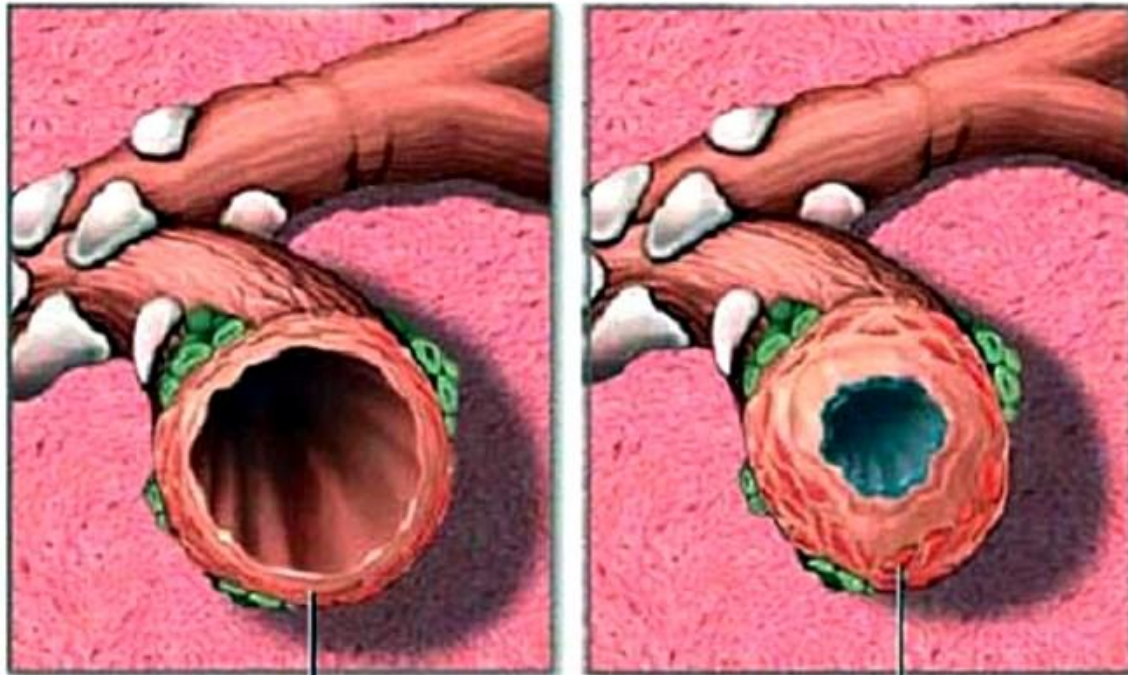

32. cold

33. Накапливаться

33. to accumulate

Нормальная
бронхиальная труба

Воспаленная
бронхиальная труба

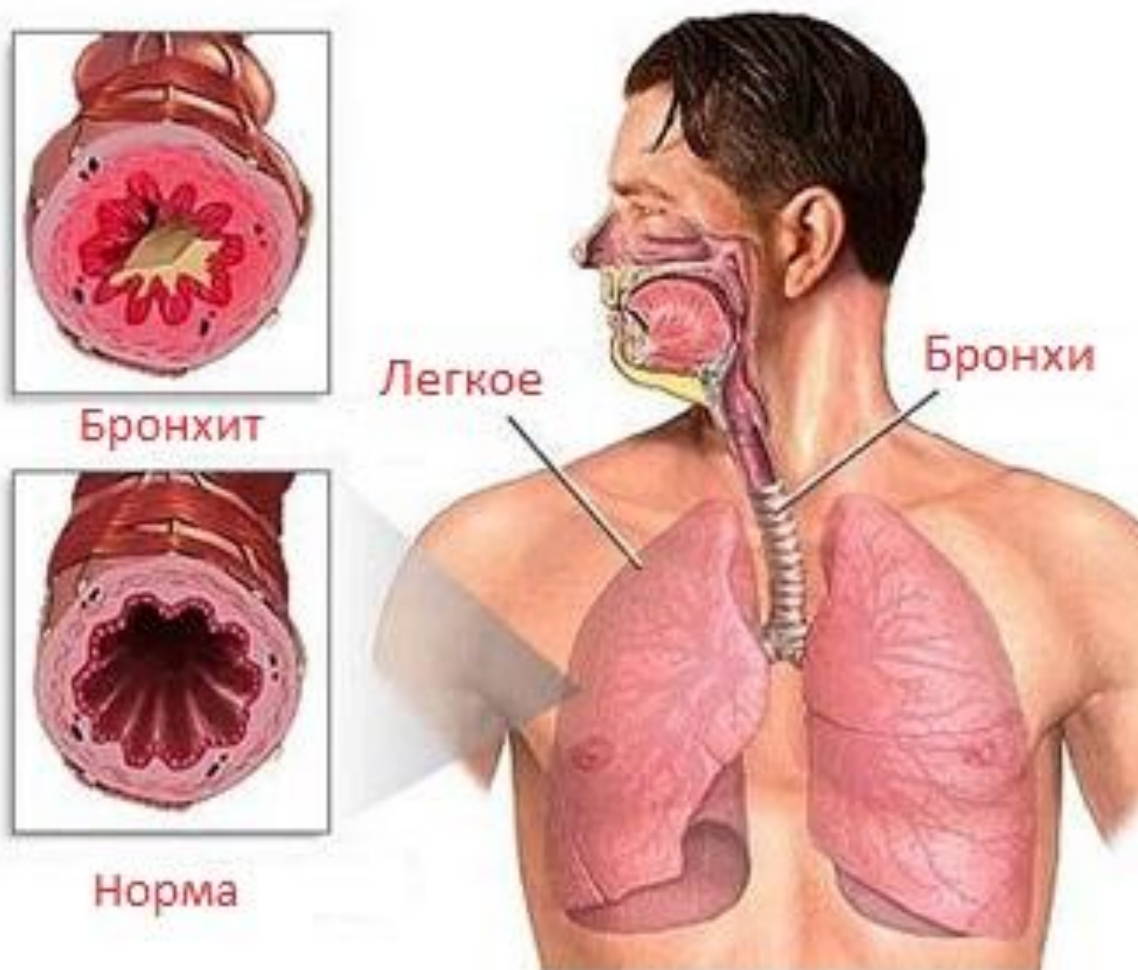

34. ВОЗДУХ

34. air
