

Project Work. Icons of Russia.

Semina Darya

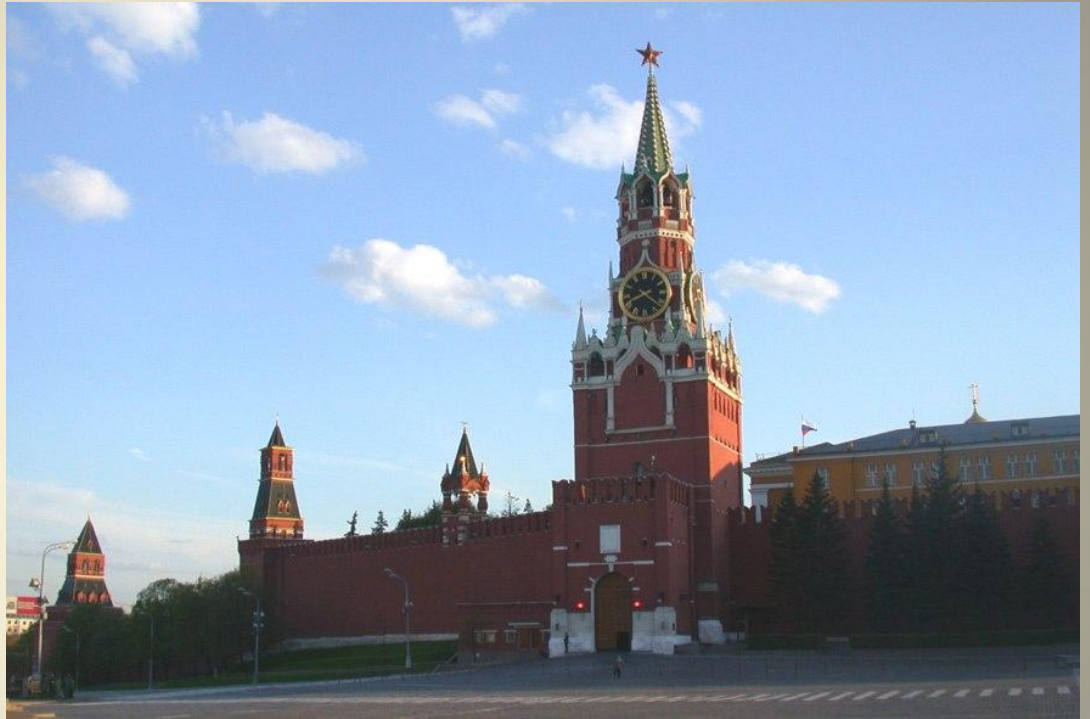

7A

I chose this topic because I would be able to tell about the most famous sights and things of Russia. Besides, I think, It will be interesting and useful for people, who like travelling, to learn more about my country, its beauty and things we all are proud of.

Kremlin

It's the heart of Moscow, our capital city. It was built in 15-16 centuries. The main Kremlin Tower, the Spasskaya Tower, has become a symbol of Russia.

Peterhoff

It's another symbol of Russia. It's situated near the Northern Capital, St. Petersburg. It was the first residence of Peter The Great. Peterhoff is very beautiful.

Isaak's Cathedral in St. Petersburg

It's the main cathedral of St. Petersburg. It has a status of a museum. It has an old and very beautiful architecture.

Matryoshka

From the things, I think, that can represent our country, Matryoshka is an important item. Every traveler from other country buys it, like a souvenir. Matryoshka is a short name of Matryona. This Russian wooden doll shows a Russian girl wearing a brightly coloured polka-dress. But this is not only one doll. It has other dolls inside, they are smaller and smaller. Today you can see many variants of painting these dolls – from fairy-tail characters to politicians.

Brown bear

Brown bear is an animal, we can't imagine Russia without. In Peterhoff you can see little bears on leads. You know, even today some tourists from abroad first visiting Russia sometimes ask their guides, "Where are bears?"

I like our country, because it's very beautiful, strong and has so many things to be proud of! It's impossible to describe its beauty.

THANKS!
