# Description of location and venue

The Virgin Islands is a millionaire's Paradise. Untouched tropical nature combined with all the extras that modern man needs have turned this place into one of the most dreamy corners of the earth. Here really come people with great financial means who want to spend the winter in some warm, Sunny and exotic place where life is still highly dependent on nature and at the same time not missing the luxury and comfort that are characteristic of modern life. The best time to visit these Paradise Islands is the winter half-year, when the weather is more bearable temperature, less precipitation and more Sunny days in General. The Islands are covered with luxurious, lush tropical jungles which are home to hundreds of species of rare plants and animals. The Islands have some of the most beautiful beaches in the world. There's white and fine coral sand. Coral reefs encourage waves to break away from the shore. Thus, the lagoon near the beaches is always calm and clear. Beautiful coral reefs are one of the biggest attractions of the island. The richness of the underwater world makes the Virgin Islands one of the best places for diving.
