Text

I study at the best school in the world. Each pupil of our gymnasium thinks so. Here is an atmosphere of friendship and understanding, so I go to school with pleasure.

Firstly, each lesson in our gymnasium is a mini-performance: different presentations, interesting experiments, exciting teachers' stories and pupils' discussions. For such lessons we should thank our teachers - the fairest, kindest, cleverest and most sociable

Secondly, don't think that we have only classes. Different events take place before, after and during the classes: concerts in connection with different holidays, children's parties, sport competitions, Olympiads, contests, etc.

If you look at my school, you can think: “A typical school! There are millions of such schools everywhere.” No, my school is the best in the world and it has a proud name – gymnasium!
