OLYMPIC SPORTS

- At the moment, the Russian national team in various sports won 213 Olympic licenses for the 2016 Games in Rio de Janeiro and another 85 licenses claims in those sports in which license holders are determined by the respective ratings of the Olympic International Sports Federations. This license allows the number of the Russian national team at this time to take part in the draw medals in 205 disciplines of 306 possible. I will support our team in all kinds of sports, but the more attention I will pay to gymnastics and swimming. In my opinion there is could be won the largest number of medals.
