the Korean archers the best in the world, they the best of the best, all records of the world belong to them in the World Cups and at the Olympic Games, they get gold medals

The Russian archers of course not favourites in the world, but we can compete in the European championships, Asia, the world and even at the Olympic Games too!

Our compatriot Timofeeva Kristina who has taken the 4th place at these competitions competed at the Olympic Games in London

# USA archery

It is undoubted that the American archers too one of the best in the world, they already the second time in a row have taken silver at the Olympic Games, in London and this year in Rio

# My favorite athlete

As soon as I have begun to be engaged in archery, I have begun to shoot since 2009. At once it was pleasant to me as the Korean archers shoot. It was very interesting to me how all of them are in a row winning and don't lose. Then I have paid attention to one of the Korean archers. This athlete is a repeated world record-holder and the Olympic Games. His name is Im Dong Hyun

# Im Dong Hyun

**Im Dong-Hyun** (Korean: 임동현; (born 12 May 1986) is a South Korean archer. He competes for the South Korean national team and is a former world number one. He has 20/200 vision in his left eye and 20/100 vision in his right eye, meaning he needs to be 10 times closer to see objects clearly with his left eye, compared to someone with perfect vision

## 2004 Summer Olympics

At the [2004 Summer Olympics](#), Im set a world record in the [72 arrow men's individual](#) ranking round, with a score of 687 (it was not recognized by the International Olympic Committee as an Olympic record, however, as the ranking round took place on 12 August, before the 2004 opening ceremony). He then won his first three elimination matches, advancing to the quarterfinals. In the quarterfinals, Im faced [Hiroshi Yamamoto](#) of [Japan](#), losing to the eventual [silver medalist](#) 111–110 in the 12-arrow match. Im was placed 6th overall.

## 2008 Summer Olympics

At the 2008 Summer Olympics in Beijing Im finished his ranking round with a total of 670 points, nine points behind leader Juan René Serrano. This made him the eighth seed for the final competition bracket in which he faced Ali Salem in the first round, beating the Qatari 108–103. In the second round Im was too strong for Butch Johnson (115–106), but in the third round another American, Vic Wunderle, eliminated him with 113–111.

Together with Lee Chang-hwan and Park Kyung-Mo he also took part in the team event. With his 670 score from the ranking round combined with the 676 of Park and the 669 of Lee the Koreans were in first position after the ranking round, which gave them a straight seeding into the quarter finals. With a score of 224–222 they were too strong for the Polish team and in the semi final they beat home nation China 221–218. In the final Italy came close, but South Korea took the title with 227–225.

## 2012 Summer Olympics

On 27 July 2012 at the 2012 Summer Olympics in London he set a new world record score of 699 in the ranking round at Lord's Cricket Ground, beating his compatriot Kim Bub-Min by one point. Although he was the top seed after the ranking round, he was eliminated in the round of 16, losing 7-1 to Rick van der Ven. Im did win a bronze medal with the South Korean team.

## Athens Olympic games 2004

## Beijing Olympic games 2008

Its last Olympic Games 2012 London, this year he couldn't be selected in Rio as in Korea the competition too difficult.

# Fedorov Aiaal

I was born in the Suntar district, in the village of Suntar. Us in a family of children four, two elder sisters and the brother, respectively I am the third. My sister is 30 years old, she is a blogger, the teacher still it is engaged in business. The second sister it raises the daughter, to my niece this year was performed only one year, but she is already able to go and to speak, but not too distinctly, and any words as mother, the grandmother and so on. My younger brother of everything is one year younger than me and he studies in a medical institute in Irkutsk, he adores the study and wants to become the therapist or the surgeon. I study in Yakutsk at institute of physical culture and sport, already on thirds a rate. I am engaged in archery from 14 years. I have good result, in 2013 became the best athlete of year in the republic. The best achievement was in 2013, I then two times won an European cup in team in Slovenia the city of Ljubljana and in Romania the city of Bucharest and still became the bronze prize-winner in personal. From action I liked English, always wanted to talk freely in this language, wanted to travel, especially to the English lingual countries as the USA, Canada and Australia, in England not strongly there is a wish to visit. I try to watch soap operas movies only on subtitlings to understand and increase the lexicon. Here we had the international tournament in Nizhny Bestyakh where from America there arrived one guy, his name is Yamaguchi Nathan, it the American of the Japanese origin, we asked it whether he knows the language, but he said no. Said that her grandmother emigrated to the USA and since then they live there. he from California, studies in university. told that here at us it is very beautiful and that here everything was pleasant to it. It is very friendly, at the end of competitions we exchanged with it t-shirts, I had the Russian t-shirt with a text Fedorov RUS, and it has Yamakuchi of the USA.

# My future profession

# Police

I plan to become a police officer upon termination of institute. It is unconditional what to arrive on service Ministry of Internal Affairs will be difficult. First it is necessary to have the military ID, those are you has to repay a debt to the homeland, A. I served in the Central Sports Club of Army (CSKA) in St. Petersburg was fit, this year I have got demobilized. Secondly you have to have a legal education, I don't have it and therefore I will arrive in absentia upon termination of institute. If for example I am not taken on service, then I can become a trainer. I will go to the village, and I will train children there, and then it will be already visible
