Ex.1, p.102

1 Read and find out:

- 1 What was a Tamagotchi?
- 2 Where did it come from?
- 3 Why was it like a real pet?
- 4 What happened to the Tamagotchi if you didn't look after it?

A Tamagotchi was a virtual pet at the end of the 20th century. It came from Japan, and that's why its name was Japanese. It was very popular all over the world. Boys and girls, teens and adults bought it. Why? A Tamagotchi was very realistic and in many ways was like a real pet. It wanted to eat, it wanted to play, it went to bed at night, it got ill from time to time, and it even went to the toilet. You looked after it: fed it, played with it, put it to sleep, gave it injections, and cleaned up after it. If you didn't look after it, it died.

in many ways — во многих отношениях

teens = teenagers

adults — взрослые

from time to time — время от времени

die — умирать
