The Light Bulb

The Light Bulb

- ✱ Edison began work on the light bulb in 1877.
- ✱ This led to the 1st commercial light system; constructed in Manhattan.
- ✱ Edison gave the company his patents in exchange for large amounts of stock.

Edison's Other Inventions

- ★ Motion Picture Camera (kinetograph)
- ★ Talking Doll
- ★ Electric Motor
- ★ A Telegraph
- ★ Storage Battery
- ★ Motion Picture Viewer (kinetoscope)

The Phonograph

- ★ The phonograph was Edison's favorite invention, patented in 1878.
- ★ It was developed due to his involvement with the telegraph and the telephone.
- ★ Edison wanted a phonograph in every home.
- ★ The first phonograph used tin foil on a cylinder, Edison recorded *Mary Had A Little Lamb*

Patents

- ✴ The patent was created to protect a person's invention from being copied, sold or used without the inventor's permission.
- ✴ The first United States patent law was passed in 1790.
- ✴ Since 1836 over four million patents have been granted in the United States.
- ✴ A patent is valid for 14-17 years.
- ✴ Edison held 1,093 patents for his inventions.

Edison's Companies

- ★ 1859 Grand Truck Herald
- ★ 1870 Newark Telegraph Works
- ★ 1878 Edison Speaking Phonograph Co.
- ★ 1878 Edison Electric Light Co.
- ★ 1881 Edison Ore Mining Co.
- ★ 1889 Edison Portland Cement Co.
- ★ 1896 National Phonograph Co.
- ★ 1911 Thomas A. Edison, Inc.

Interesting Facts

www.cs.iupui.edu/~dman/home.html

- ★ Thomas Edison lived through the Civil War, the Spanish American War, World War I and the beginning of the Great Depression.
- ★ Edison was mostly deaf. He lost most of his hearing at the age of twelve when a conductor pulled him onto a train by his ears.
- ★ He did not let his disability stop his love of learning.

Comprehension Questions

- ★ Name three of Thomas Edison's inventions:
- ★ What is a patent?
- ★ Name one interesting fact concerning Thomas Alva Edison:

“Genius is one percent inspiration and ninety-nine percent perspiration.”
