Vocabulary

An aerial photograph of Independence Square in Kyiv, Ukraine. The central feature is the Independence Column, a tall white monument topped with a golden eagle. A large crowd of people, many wearing red, is gathered in the square. The background shows a dense urban landscape with various buildings, including a church with a golden dome. The sky is clear and blue.

The geographical location

We live in Ukraine. The territory of Ukraine is about 603,700 thousand square kilometers. The country is situated in the centre of Europe.

It borders on Russia, Moldova, Romania, Hungary, Slovakia, Poland and Belarus.

The Mountains

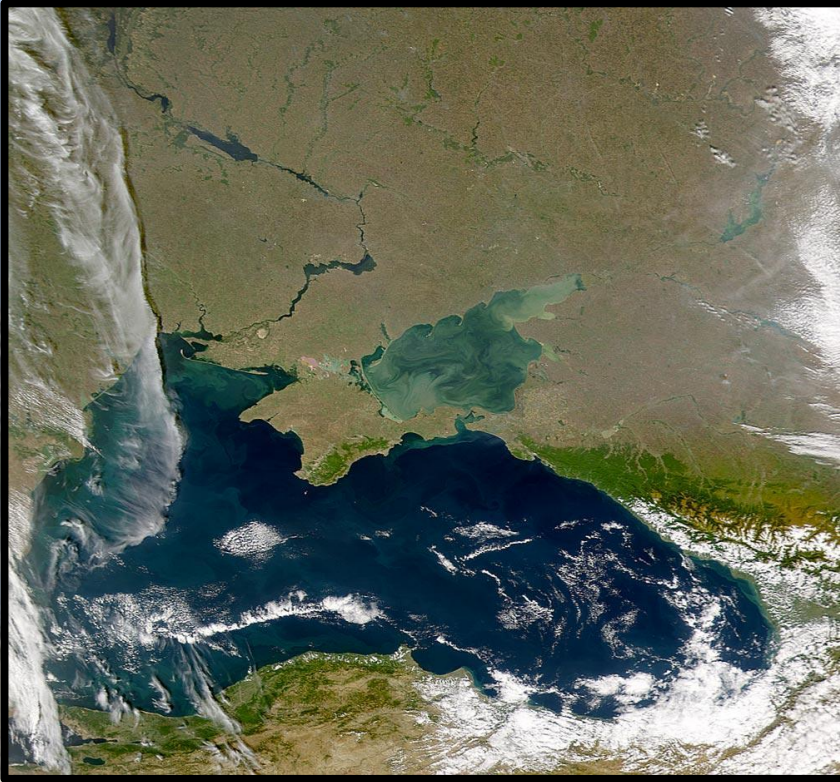

We find the Carpathian Mountains with the highest peak Hoverla (2,061 m) in the west of Ukraine. There are the Crimean Mountains with the highest peak Roman-Kosh (1,545 m) in the south of Ukraine

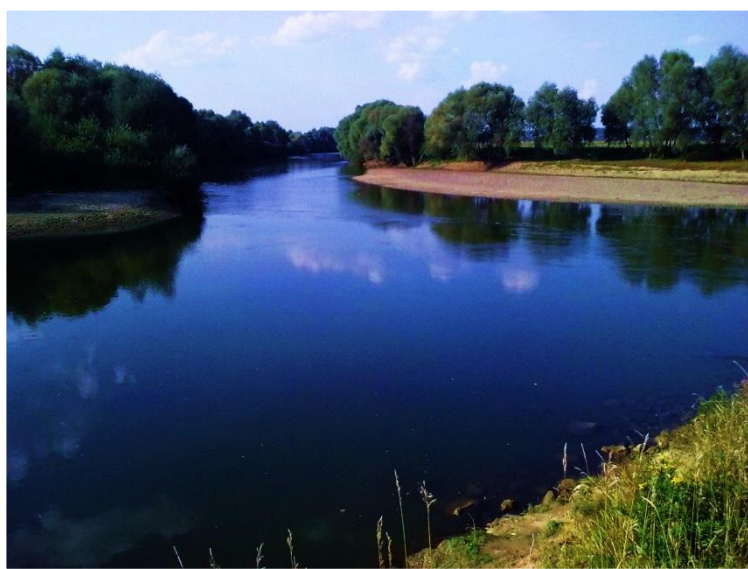

Water bodies

Ukraine is washed by the Black Sea and the Sea of Azov in the south. The main ports are Odesa, Kherson, Mykolayiv and Sebastopol.

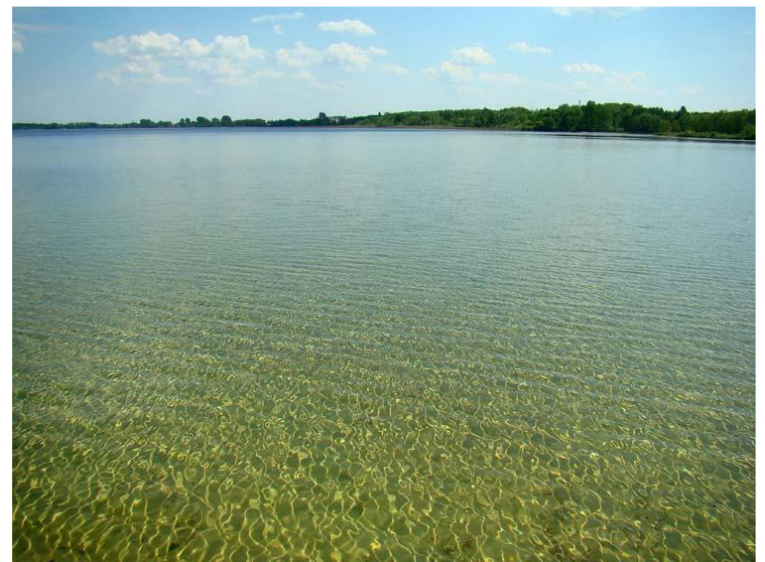

There are a lot of rivers in Ukraine. The largest rivers are the Dnipro, the Dniester, the Danube, the Southern Buh, the Siversky Donets and the Tysa

Also there are a lot of lakes on the territory of Ukraine. The largest fresh-water lakes are Lake Yalpuh and Lake Svytiaz.

The Administrative Division

Ukraine consist of 24 regions and the Autonomous Republic of Crimea.

CLIMATE
Scale 1:5 000 000

Climate

The climate of Ukraine is different in various parts of the country. The Carpathian and the Crimean Mountains protect the country from the bitter winds.

In general the country's climate is moderately continental.

Winter without severe frosts.

Summer is quite hot and dry, with occasional showers and thunderstorms.
