BP 3C/ Story Book

**What is your favorite  
animal?**

**Polar bears live in ice and snow. They like cold weather. They like to play in the snow. Their thick fur helps to keep them warm.**

**A dog is not a  
wild animal.  
These are  
watchdogs.  
They have tick  
fur to keep  
them warm.**

**Ducks like to play in the rain. Their feathers keep them warm and dry. And their feet are made for swimming.**

Look at this small squirrel. It's raining but it is not getting wet. It's waiting under its umbrella. And that's not a normal umbrella. It's a flower. It is a natural umbrella.

These elephants are splashing mud on their bodies. The mud protects their skin from the sun. Elephants like a mud bath.

Would you like try it one day?

**This camel likes sun and sand. It lives in the desert. It has big flat feet to walk on the sand. It has long legs too.**

**It's night-time.  
This bat is flying  
around looking  
for food. It uses  
sounds to help it  
know where it is  
going. It also  
uses sounds to  
find food.**

Sunshine is perfect for this crocodile. It needs to warm up before it starts the day. It can't move quickly when it's cold. Crocodiles have cold blood. They live by the river.

**This baby penguin looks tired. It can sleep  
anywhere on the snow. Its parents bring it  
food.**

Porcupines  
don't need to  
move quickly.  
They use their  
spines. Their  
spines are long  
and sharp.  
Nothing can  
hurt them.

**These little  
mice get their  
rest in their  
nice, warm,  
and  
comfortable  
nest.**

*Good Luck*

**Thank You!**
