A man with a beard and short hair, wearing a light-colored button-down shirt, is sitting at a desk. He has his hands clasped together and is looking off to the side with a thoughtful expression. On the desk in front of him are some papers and a pen. The background is slightly blurred, showing what appears to be a bookshelf.

# One column

Do you know what helps you make your point clear? Lists like this one:

- They're simple
- You can organize your ideas clearly
- You'll never forget to buy milk!

You can replace the image. Just right-click on it and select "Replace image"

# Two columns

## Mercury

Mercury is the closest planet to the Sun and the smallest one in the Solar System—it's only a bit larger than the Moon. The planet's name has nothing to do with the liquid metal

## Venus

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot—even hotter than Mercury—and its atmosphere is extremely poisonous

# Three **columns**

## **Jupiter**

Jupiter is a gas giant and the biggest planet in the Solar System

## **Venus**

A woman with long dark hair and round glasses is looking down at a tablet computer. She is wearing a light-colored button-down shirt and jeans with a dark belt. The background is a blurred indoor setting with large windows. Overlaid on the image is a large white number '7,300,000'. To the right of the number are several bright green diagonal lines of varying lengths. Below the number is a solid green horizontal bar containing white text.
