# OUR CLASS

# Plan:

1. My class
2. Subjects
3. Our teachers

# My class

My name is Nursultan. I am a student of first course of the Kazakh-Russian Medical University. I am a future doctor.

There are 10 students in our class – 7 girls and 3 boys. All of my classmates are very clever and intelligent. I am glad very much.

# Subjects

We have very interesting and difficult subjects. My favourite ones are Medical bio physics and Molecular biology. They are very important for future doctors.

Chemistry is the most difficult subject, but so interesting. I did not love it at school. And now I understand and like it.

# Our teachers

In our university work very professional teachers. They are strong, but know their subjects very well.

I am glad to be studied by proficient teachers as Dina Nurkushevna, Nauat Berikovna, Aigerim Bereshova, Gulzira Saparovna and etc.
