The Kazakhstan-2050 Strategy

Economic growth, based on an open market economy

- The country's GDP increased more than 16 times;
- Since 1999, annual GDP growth in Kazakhstan has been 7.6% and has outperformed advanced developing countries;
- GDP per capita increased more than 7 times from 1,500 US dollars in 1998 to 12,000 US dollars in 2012;
- 160 billion of attracted investments;
- The growth of foreign trade is 12 times;
- Growth in industrial output - 20 times;
- Oil production increased 3 times, natural gas - 5 times;
- Since 2010, 397 investment projects totaling KZT1,797 billion have been implemented and over 44,000 jobs created;
- Today we are a dynamic country with an average income level of the population and a dynamically growing economy.

Health, education and welfare of citizens

- The average monthly wage increased 9.3 times;
- The average size of pension payments increased 10-fold;
- The nominal monetary incomes of the population increased 16 times;
- Expenses increased: for medicine - 13 times and for the education system - almost 10 times;
- Even in the years of acute crisis, the state has never abandoned its social obligations!
- Life expectancy increased to 70 years;
- Compulsory pre-school education covered 94.7% of preschool children;
- Since 1997, 942 schools have been built across the country, as well as 758 hospitals and other health facilities;
- Over the past 12 years, the number of grants for higher education has increased by 182%;
- 8,000 young people received training abroad as part of the Bolashak program.

Energetic resources

- The oil and gas complex of Kazakhstan is the locomotive for the entire economy;
- The growth of the share of the oil and gas industry in the country's GDP, which increased from 3.7% in 1997 to 14.7% in 2006 and 25.8% in 2011;
- Today, we use the revenues of the commodity sector to build a new economy for the future;
- We diversified the sales markets and firmly consolidated our positions, thereby reducing dependence on one direction of selling our products!

The Kazakhstan-2050 Strategy

Infrastructure, especially transport and communications

- Over the years, many major strategic facilities of industrial, transport infrastructure and infrastructure of vital activity were commissioned;
- Every year, the number of consumers in the telecommunications industry is growing. This concerns both fixed telephones, and mobile communications, and the Internet;
- "E-government" significantly facilitated the interaction of citizens with the state;
- For the last 11 years more than 48 thousand kilometers of public roads and 1100 kilometers of railways have been built and reconstructed;
- We are reviving the New Silk Road, creating the main transport corridor "Western Europe - Western China";
- We have opened access to the countries of the Persian Gulf and the Greater East!

THE END
