# What is Hip Hop?

Hip hop is a cultural movement that incorporates different elements of art.

Four foundational elements characterize hip hop culture. The original four main pillars of hip hop include

- DJing/turntablism,
- MCing/rapping,
- B-boying/breaking,
- visual/graffiti art.

The global influence of hip hop culture has shaped music styles, fashion, technology, art, entertainment, language, dance, education, politics, media, and more.

To this day, hip hop continues to be a global phenomenon, developing new art forms that impact the lives of new and old generations.

# Hip Hop Culture Origins

Hip hop emerged from the Bronx in New York City during the early 1970s.

Its development reflected the negative effects of post-industrial decline, political discourse, and a rapidly changing economy.

Conditions worsened in neighborhoods prominently populated by African-Americans, Puerto Ricans, and Caribbean immigrants.

Consequently, businesses closed their doors, causing many economic opportunities and sources of entertainment to evaporate.

As a result, urban youth turned to the streets for recreation and self-expression.

# Hip Hop Pioneers

DJ Kool Herc

Grandmaster Flash

Afrika Bambaataa  
(the creator of the style's name)

These three innovators are known as the “Holy Trinity” of hip hop.

# The Golden Age of Hip Hop

During the mid 1980s and early 1990s, hip hop spread across the country in full force. It brought an era that significantly transformed hip hop culture. This new era became known as “The Golden Age of Hip Hop”

There was also a wave of new school rappers who were pivotal in bringing hip hop to the mainstream.

At the forefront was RUN DMC, a hip hop trio who fused rap with hard rock.

Some other innovators in the golden age of hip hop were L.L. Cool J, Public Enemy, the Beastie Boys, and many others.

# Mainstream Influences

Hip hop music became even more commercial, becoming the top-selling music genre by the late 1990s.

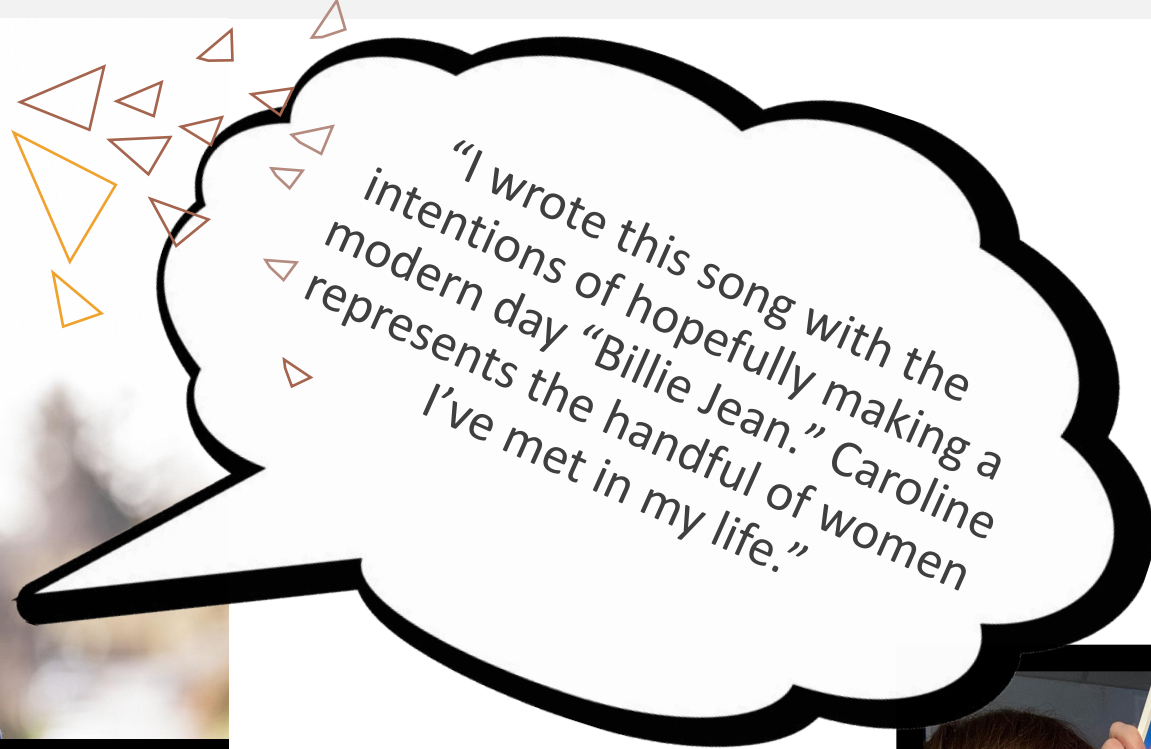

Different regional styles also emerged such as West Coast hip hop, gangster rap, Southern rap, rap rock.

A new wave of artists also emerged, such as N.W.A., Dr. Dre, Tupac Shakur, Snoop Dog, the Notorious B.I.G., Jay-Z, and several others.

By the end of the decade, hip hop was an integral part of popular music. It even found its way into mainstream pop and electronic music.

# Aminé - Caroline

**Adam Aminé Daniel** is an American rapper, singer, and songwriter. He released his debut studio album *Good for You*, on July 28, 2017. There was the song "Caroline" which was firstly released on March 9, 2016.

Aminé made the beat along with another Portland producer, Pasqué. Aminé also directed the video, which includes clever visual references to the filmmaker Quentin Tarantino.
